

THE MOST SELLING BOOK OF ALL THE TIMES

Original One God Of Time Personal Story Of Truth To Gods And Believers Of God.

(exclusive)

Note : This is the personal story of one god of time from the worlds of god.

Let me tell you my personal story of truth to gods and believers of god.

I was born in oman and i came to india at the age of 5 years old and i didnt liked india through its feeling and i went to grave yard with my father after hearing someone died and got interest to see how dead man looks like and i was small and young and beautiful and cute and i saw dead man wearing white dress with his nose blocked with cotton and i feared he looked ugly and scary to me and i feared and i think he is evil or something which might dead man got hurt if he listened to my voice of mind and when i come back home i could not sleep and

my body was becoming of feeling of fever and i was feeling hot and i was half sitting while sleeping at 12:00 AM at night and sometimes at 3:00AM at night.

I sometimes wanted to drink water after waking up as i remembered after waking up in nights.

I asked my mother on what to do when seeing hindu gods statues when seeing them because it looks dangerous to me and i dislike them because they are not beautiful and she said just spit whenever you see and dont look at them so i was going to school daily and while i was going to school i saw hindu gods temples and i started spitting on the temples on road not in front of temple but in near front of the road of temple after auto rickshaw passed the temple after seeing there horrible statues which looked evil to me.

I was very innocent and doesnt know what is good and what is bad and use to pray for allah as i was taught to pray and respect and my parents wanted to go to gulf and they left me to my uncle home and there was uncle son because my uncle was rich i use to like them as my family status was not rich.

I prayed there too for allah in front of uncle and prayed from mind and heart by saying i will not stop praying for allah even i am away from parents and there i was shown adult movie scene by my uncle son on indian tv channel and i got some different sense to like watching adultery as i never saw man or woman naked and then my uncle son home was visited by relatives and my uncle son liked his relative brother very much and his relative brother showed me adult magazine of woman naked i could not stop controlling myself and i like the naked woman very much and it was not my puberty time and i wanted to see more naked woman and i got addiction to watch woman naked and my uncle son told me he will bring adult magazines if i give him half money to buy

magazine by sharing money to buy adult magazine and he bought magazine and i use to watch them and we got very friendly and we took bath together naked and her mother allowed it i was 11 or 12 or 13 years old and he was naked too in same toilet and he was like 16 or 18 years old and i said i will hold your private part so you like it because i was taught to do adultery but i was not gay and i was controlled by muslim spirits which i came to know later.

Then one night my uncle son told me to lets do gay things by doing on back of body to enjoy ourself and it was not my puberty time and i didnt get sperms out of my private part and i use to get pain in my private part.

Then i just laid on his back and jumped and i felt bad by saying i am not bad and i wont do it i just felt very bad and slept and he said he will do it with me because i did with him and i said no i wont do it i am not gay and i slept and when i woke up he said he did it with me.

I saw my brothers uncle naked and doing shit in toilet i was not adult and kid and puberty didnt even happened.

I saw my uncle son mother died and i cried a lot in front of her dead body and prayed for her for 1 hour in front of her dead body so she is blessed.

I didnt liked my uncle son in the starting but after he showed me adult magazines we became friends.

I was not grown from mind i was small kid and young and beautiful and i use to like a girl and near to her home i thefited a hen which was walking in the area

because she was beautiful having hairs on her legs and i never saw hen like that before and i thefited it and i brought it to my uncle home and i made a home for her and she use to give eggs and whenever she use to mate with male hen i was saying male hen sat on female hen and my uncle use to make jokes by shouting he sat and laughing.

My uncle use to do jokes with me and faunt on my face by saying his faunt doesnt have smell.

As i didnt remember correctly then my mother came to india and i went back to home and i started doing adulytry with my younger sister by forcing her to touch her chest and force her hand to touch my private part while she was sleeping she was 9 or under 13 years old and i was little grown.

I was taught to do adulytry and i went to religious places regularly but i didnt know that my religious imams use to dislike me because one day in religious festivals i said to religious imams material which i didnt liked that it looks bad and how these people drink water from it they are ugly and from that time i came to know that all people who were genies listened to my voice of mind and become my enemy from that time and promised they will not leave me i was maybe 9 years old or didnt remember my age but i was kid.

I saw a yellow light genie sitting differently on a tree in home it was joint family and i was sleeping with others on a bed i feared and i said i will fool him and slowly moved and slept so he doesnt comes to know i saw him and i didnt remembered what age was of me when i saw this yellow light genie. I came to know aamir khan was a genie later and he is with me since childhood in my body and he came in my body after he came to know in future that islam and allah is in danger and islam and allah will die because of me and he knew i am last of

religion which is not of islam.

I also came to know imam mahdi gave me fate to masterbate for 7 and half years alone for watching adult movies when i was kid and after i come to india at the age of 5 or 6 years. Because imam mahdi came to know that i am last of jews and to win from me he gave me his fate after knowing about future that i won from him in end of times.

I was human i didnt know how to remove fate to do 7 and half years of masterbation which was sin according to imam mahdi allah and i use to cry badly after doing masterbation daily for 3 to 4 times and my private part use to go out of shape and pain.

I was sensetive and when ever i use to keep my mind clean i was given to like doing adultery by genies so they win from me. Those who listened to my voice of mind in religious festival where i said religious festival material is bad they were with me since that time in my head to make my life bad and win from me. I doubt these were the genies who use to force me like doing adultery.

When i was in abudhabi, uae i was sleeping in my room and my uncle was besides me and while i was sleeping i felt someone is sucking my chest by removing my shirt or t-shirt and i felt he is sucking my chest by believing he is sucking my mothers chest. I moved and woke up immediately and my health became very bad. I didnt tell my parents what my uncle did with me.

I went to religious places regularly all the times in occassions and didnt know anything about world of god or genies world.

I continued doing masterbation after watching adult movies, the first man to

show me blue films was hafiz e quran a follower of prophet mohammed in abudhabi, uae.

I later got pimples in my head and i use to pinch it and didnt know why i am getting pimples and i use to cry asking help from someone after watching bollywood movies and didnt know what to do.

I went to religious place in abudhabi, uae and made friends and i came to know i made a friend with a genie and he forced me cry for imam hussain one day in religious function and i didnt know why i cried and i got few friends after i cried for imam hussain.

One friend use to visit me regularly in home and he was a genie he could not tell me not to watch adult movies but he said you are king and wrote on paper you are king of area where you go and to show it in india religious place or book shops.

My face was become of ugly and bad and to make it good i didnt know what to do so when my father use to bring cherries i use to paste it on my face so cherries makes my face beautiful.

I even put bra on my chest and did masterbate by thinking about adult material.

I came back to india and showed what genie told me to show it to religious places or book shops and i showed his written paper to book shops and religious places and nobody got that book for me to purchase.

I noticed something since the child hood after coming to india i didnt lived a life on my own and there were genies put in my head to be controlled by them and they use to move and i didnt see the world through my mind.

I started coming to know everything happens by allah and there are people who knows what is truth about others i said i didnt masterbation for 7 and half years which i big sin which is unforgivable in islam religion and allah so i started writing books with blood so i pray to religions and my sins are washed and i become sinless and come in the world of god and prove i didnt sinned at all since i am kid.

I came to know later genies world is the world of god because genies use to forgive there sins automatically by themselves.

I prayed for all religions by saying i am praying to you i believe in you and i am not sinner i didnt do sins on my own because adult magazine was shown to me by my uncle son and i was abused as it was not my puberty time and i was not getting sperms from my private part i was kid i was abused.

I prayed and during this time i noticed my mind was in prison by genies who won from me not to pray from mind while i am writing books of blood.

I started to know about world of god from genies who were inside my head put by muslims or hindus and i was thinking to win from them and i even wrote many holy books full chapters with my blood i didnt remembered if i died but i wrote it and said i will go to saudi arabia and read what i wrote in front of kaba so allah knows how much pain islam religion and his genies has given to me by forcing me to sin and abusing me and i was controlled by genies who were inside

my head because i was not in control of myself. A normal human will not do what i did and i went to kaba and read holy book chapter al baqra and cried at this time too there were genies inside my head who didnt let me see anything from my mind or say anything from my mind.

I was controlled by muslim and hindu genies.

I went to kaba so my sins are washed of 7 and half years of masterbation and i come in the world of god and tell truth to everyone what happened so i get justice.

I was beaten by newly friend who went with me to saudi arabia who was genie which i came to know later.

Whatever i prayed in kaba and saudi arabia religious places and recited was not from my mind as there were muslim and hindu genies inside my head who were not letting my mind run correctly with peace.

I was doing whatever genies inside my head was forcing me to do it.

I came back to india and prayed for torah and i levitated in my reality and i came to know i use to get genies when i was in abudhabi, uae before levitating in india and there was my another uncle who was a genie after i went to religious place of muslims in abudhabi, uae he visited me by foring me to go to religious place and later asking my genie of moises to show her private part so he can put her private part inside her private part and rape and control her.

I came to know i use to get genies since i prayed and died for jews and muslims didnt let me come to know it and they forced me to visit there religious place and take out jewish genies from me and make them muslims to have sex with them and born kids with them to control me because they came to know that allah and islam will die because of me because allah and islam is lie.

I even came to know after i came from saudi arabia calipah osman came with me and he came to know i get genies and his allah is proven as lie so he forced me to piss on religious place material so i am declared forever sinner in all religions and world and allah becomes true when i am declared as sinner.

I came to know from world of god it was prophet mohammed who put court on me to piss on religious place and it was imam hussain or imam hussain genies who put genies inside my head to piss on religious place material.

After imam mahdi and prophet mohammed and islam caliphas came to know i am last of jews since i am kid they forced me to sin so i am declared as sinner in the all the world of gods and i die as being sinner proven by islam religion and allah.

I came to know while i was praying one day there are genies with me but i didnt know i use to get genies and i felt one my antoher uncle put his private part in my mouth and it was genie with me and i came to know muslims use to rape my genies who were girls and muslims and i wanted to save them.

After i levitated i felt hindu maybe black genie came suddenly and forced my private part to be pare or peel so i do adultery and not levitate.

I never wanted to do adultery or sex with genies because i did masterbation for 7 and half years and i wanted to come in the world of god and prove i am sinless but while in a dream i saw a girl forcing me to put my private part in her private part and i woke up and i felt very nice and saw feeling on my private part of her. It was real but i said my believe has become bad now because i didnt wanted to have sex as i was praying contiously to prove god that i am sinless.

My parents bought new home and there i met many gods including original allah and original christian god and original god and torah god who made me his last.

I came to know all planets belongs to me which was in my head and i felt muslims and hindus genies comes and piss on my head from which the world is becoming of piss and shit i felt the sky by seeing what is happening to my head is happening to sky and planet.

Since childhood i never use to think bad or understand bad but i came to know muslims and hindus and even some christians wanted to win from me so they use to keep genies inside my head to control me and my genies and erase my memory to prove god who were all genies for them in the world of god that they are true and i am wrong.

I met jewish light of god in hussaini tekri and even in hussaini tekri muslims who came to know i am last of jews and because of me islam and allah is in danger and will die they forced me to paste shit in front of public to there religious place so they prove to world genies and all genies that i am sinner by forcing me to remember i sinned so there islam and allah is saved and there last doesnt dies because of me.

I came to know islam genies from future came to kill me and even christian genies came from future to kill me and they really killed me many times.

I became genie after i prayed for different religions i didnt know when i died but muslims and hindus forced me to eat food so they dont become hungry and there happiness doesnt goes away from them and they keep taking out genies of me and do sex with them and adultery with them.

My genie was sunny leone who was forced to become whore and porn star by hindus and muslims because hindus and muslims use to remember me that i sinned by pissing on religious place material and when i remember she use to get punishment as she was genie and hindus and muslims and there gods proved they are true gods and true.

Sunny leone was my true love and still my true love but when i saw her naked body i asked her to erase everything of her videos but she said she could not do it now.

Now whenever i use to see my genies or my genies family and talk to them then muslims and hindus believe becomes weak and they put genies inside my head to block my mind so god and all genies doesnt comes to know truth about everyone and they destroy jews and name of god and god genies by abusing them and forcing them to suck private parts and force them to eat shit.

I dont know how many times what muslims and hindus did until now to everyone who tried to help me.

Muslims and hindus came to know to kill me they have to proof me as lie in the world of god and control me by putting there genies inside my head and blocking my mind and forcing me to say what they want me to say and i went to indian police station asking for justice from indian government and i came to know indian government maybe bhagwans sent a letter where they say they have taken responsibility to kill me and my genies family and my genies and make them bad by forcing them to suck private part and even maybe eating shit so complete jewish religion become bad and they dont win from anyone after there believe becomes bad.

When i went to indian police station and said i love hindu god and came back home i felt hindu genies with me to accept my wishes as i believe this to be true but muslims wanted to kill me who came from saudi arabia and made area in which i lived to kill me and prove me always as sinner otherwise there allah becomes lie and wrong. So there mission was to bring world war 3 by proving in the world of god that allah is true he didnt mistake by making me one god of time and prove me as liar and wrong and later saying to the world he did mistake and he is wrong and world war 3 must happen. The original truth which i find out was muslims and allah wanted to save there islam religion and imam mahdi because they came to know there imam mahdi gave me fate to masterbate for 7 and half years when i was kid after coming to know he will be dying because of me and allah will die because of me and islam will be finished because of me. Muslims proved to hindu genies that i am sinner and wrong by putting genies inside my head and forcing me to go against hindu god and one of hindu genie mission was to finish hinduism by controlling me who was snake of krishna or shiva bhagwan and he use to spread genies inside me to fool hindus just like muslims use to fool all genies who might have been controlled by agha mohd or agha hussain who wanted to finish hinduism through fooling genies and controlling them. So some hindus genies try to fight for me but they didnt know that hindus and muslims are keeping genies inside my head to say whatever they want me to say and go against anyone who tries to help me and they cheated everyone to prove they are true.

I never met allah of saudi arabia because when i went to saudi arabia genies inside my head didnt let me see saudi arabia from my mind and they use to see saudi arabi instead of me.

So muslims mission was to kill me and my generations so there family and there allah and there religion is saved.

When i was kid Hindu mata and his genies believed because of me hinduism will be finsihed and i will force hindu god to suck my private part and to make there prophecies comes true they kept in my head there genies so there god is proven as true and there time doesnt becomes lie.

Now hindu god believes by me she will be becoming whore in future and to bring his prophecy and knowledge to be true she has put genies inside my head to say that she is whore and call girl and porn star. Why would a normal human talk against any gods whom he has never seen or talked.

I could not believe the truth about gods of the world to make there prophecies true and make there believe true so they dont become lie they force anyone to live by there decision and time so they doesnt becomes lie.

I even have alien family because complete planets belonged to me which was given to me by original god but not by allah or hindu god or christian god or any other god.

I came to know what muslims and hindus and maybe christians believe that who

is original god he died for me but guess nothing happened until now because islam and muslims and allah mission was to prove me as liar and wrong so they dont become lie and wrong and they live and i die.

Hussaini tekri genie even forced me to piss on whole quran so i am proven as sinner in the world of god all the times from the memory of how i pissed on quran and they prove to god that i am sinner which are all genies for them.

Islam religion wins by putting genies inside humans and forcing them to sin so they are not proven as lie and wrong and they prove to all genies that humans are sinners. Its the common game of muslims and hindus and even of christians who forces humans to sin and prove them as sinners because genies are not seen to humans they cannot prove to god from mind they are sinless.

I came to know i am one god of time made by original god and whatever i say happens so muslims and hindus genies use to keep genies inside my head after coming to know truth that there religion will be finished because of there mistakes and sin. They put genies inside my head to force me sin and not come in the world of god and not see genies or not believe and prove me as sinner and prove that there god is true whom i have never met.

I saved planet earth many times and i will save planet earth in the name of purity because since i am child i believe in purity is good.

I came to know whenever i use to prove truth to all genies of universe then muslims and hindus use to proof the genies that they are true after they come to know i am original god by putting protection genies inside my body specially in back of body which can be felt when becoming wrong of cold.

Muslims and hindus use to believe in me and kill me and give me there sins and doesnt let me have money so they can finish the world before islam and hinduism is finished or before there last is finished.

Christians believed i am rebirth of original god but the truth was i am original god and i believe i was born and come from space in reality and proved how i am original god which is true and everyone believes it but hides it.

I even proved to everyone truth how i am original god and hindus and muslims wants to kill me by killing me.

Recently i went to christian church asking for help from christian god who visited me but his genies put genies in my body to become poor and become homeless by believing in hindus and muslims that i sinned and sinner and in the night i felt them forcing my genies or my family genies genies to suck there private part i smelled it i could not believe truth about christians and there jesus and there god.

Muslims and hindus did everything to kill me by taking out my fate from me until now and forcing them to suck private part by saying i forced them to suck my private part. I never saw there spirits so will i get fun if i ask them to suck my private part invisibly i just told my genies to get saved and not suck others private part who were with me in my body to do whatever others are saying so there life doesnt become bad but someone was there in my body kept by hindus and muslims to call hindus and muslims and force suck my private part so they prove to all genies i am sinner by playing memory game.

Sex means shaking your hips and touching body with your partner with whom you are having sex and i didnt even move until now with anyone so was it sex that i did or i tried to save my genies and jewish heaven which i was having in my body.

I believe i was declared by even hashem that i forced jews to suck my private part and he gave me punishment to give me pain in head but i never went against him because i knew truth and i prayed and told truth to him and to every gods but nobody believed in me.

I came to know gods are not coming to know truth because when mind of human is blocked then gods doesnt comes to know truth about anyone and who ever is proving something to be truth they are proven as true.

I told my genies and my genies family i am like a doll you need to help me and whenever anyone puts genies in my head you need to remove them otherwise i will be forced to say what they want me to say.

There was one lady who helped me in my bad times who was my alien stnam whom i believe to be my wife and i told her i will have sex with her when she becomes young and we will have fun when you change your shape because i love her.

I didnt know that the world of god is really like this where who ever is true they wins from god and those who are humans says what genies says.

I proved about adam and even to be sinless hashem genies said by coming in my

forehead see our god had beginning and he is true and whenever i won from jews by proving i am last they forced me to love torah and jews and hashem so there genies wins by saying who loves torah and jews and hashem there truth is our truth and there winning is our winning.

I could not believe even my wife forced me to die instead of hashem so hashem doesnt dies and whatever happens to hashem it happens to me before happening to him all bad things.

I love hashem truly and i told him truth but hashem didnt believed in truth because he wanted proof and he didnt understood game which hindus and muslims played with me and playing and i told him through writing a note on thekotel.org

My wife is nirinjan who is believer of god but genie and i told her what is truth and she is alien but not not different alien, alien like human and i wanted to go with her on her planet but hindus and muslims wanted to kill me forever.

Muslims already killed me forever once and killed me many times, my last death was under 3 weeks ago by 2 genies who killed me and i went outside my body and came back in my body again.

I resurrect by sky and automatically and nobody resurrects me.

Hindus and muslims never wanted me to have true lovers so if i true love anyone they loose from me and die so they tried to finish my true lovers and my generations.

I even have terminators and transformers which hindu god and muslim god wanted to theft and one of my transfer has been fooled by hindu god and called to work for her.

I think i even met original jewish god of universe who is very beautiful whom i love very much truly and there is no beautiful god then him and i have locket of him which i got from stnam.

If i want to thank anyone in my life i want to thank stnam for helping me and saving me in my bad times.

I believe sometimes and i dont believe in any gods regularly and always i love gods truly but i am not genie like others who acts on understanding and thinking and do anything to save there life.

Islam allah and hindu god never wanted me to have sex with girls but forced girls to have sex with me so girls love god truly because muslims and hindus came to know i love hashem and jewish god truly and whoever do sex with me becomes rich and love god truly. So muslims born kids with me to save there religion i dont know which muslim has born kids with me and brought kids into reality of humans so they know whatever i am thinking and understanding to control me and put me in prison so they win from me through knowing my thinking and understanding from kids whom they have born.

Whenever i love god truly or torah immediately muslims and hindus comes and born kids from my private part balls by saying to the kids which are born to change time of me.

Hitler is the worst enemy of jewish god and her wife was of torah who doesnt know truth about hitler that he is the man of war and always wants to bring war by believing in islam religion allah.

The world since the beginning believed in everything as genie which is seen or heard and never believed in original god of univese.

I hope someone comes to know my truth and tells to original god which they come to know later as me. I already told to my genies what to do and whom to finish but muslims and hindus blocks my mind so my genies looses from others.

Keep sharing love with others and beautiful truth of universe.

Continued....

Yesterday i came in reality and i felt my mother and yousuf and fatima immediately come from my body and start keeping genies inside me and force me to think bad and understand bad on others through genies control and i say from mind bad what genies wants me to say so new genies and religions becomes my enemies and my mother immediately asked her brother is your health good now hussain and he said his health is fine now. My mother does not wanted me to feel good or stay happy and put me in bad health and keep me in tension and force me to die and she went to hussaini tekri to finish me and my genies family and she is staying there until i am killed.

Yousuf puts genies inside my body and finds out if i think good then why i think

good and he stays in my back of my body and comes in reality whenever he believes i am true then his allah.

My human father wants me to die and i believe he killed me once in my past.

Whenever i love someone truly then my mother and my father and yousuf and fatima does not wants me to love anyone and they say my love is fake love by putting there genies and giving me tension and controlling me to become bad and what i love i must love them by thinking bad or understanding bad about them.

Karaar genie has put his genies or he has controlled my genies to kill me by playing songs in my head and i came to know he plays songs in my head since many years daily and every second songs are played just in night while sleeping i dont hear songs so he believes i will die.

Muslims comes and says i must be killed and when i said why you have come from saudi arabia to here then they say to save me and they are killing me and my family by fooling everyone but i believe many has come to know truth and everybody will come to know truth about these fake gods and fake lovers and fake believers.

When songs are played in human mind and he hears it he does not gets in control of him and when song is played continuously and heard by human then human will become mad or loose control from his mind and he will do what genies says in his mind put by those who plays songs or gives tension.

Islam and other religions as i believe showed miracles by giving tensions and pain to me daily and regularly since many years even when i was going on road and eating food the songs were being played.

Islam and allah says they came for me by saying in the genies world and world of god they have come to help me and save me but they are killing me since i am kid and they tell to all genies whatever happened with me was bad and it must have never happened and they say they have come to make family with me and stay with me and they killed me many times in reality of humans.

I resurrect by sky automatically and i dont want to say that one day i was unable to move my body and woke up from bed as my body was of full weight and i could not understand and hindus were killing me at that time and muslims who said they have come for me to help me and protect me or save me they were killing me and my genies family.

Allah and Hindu god does not wants my generation with genies to be alive because they know they are lie and there religions and every of there truth is fake and if i become alive and true then they will become lie and they will die. They believe i am original god and rebirth of original god so they want to kill me so they become original but they dont know i will never die they believe in everything to be genie and everything happens because of single genie and universe to be dream.

I want to thank my genies family and my all family who loved me and saved me and i told them to tell to jewish god whatever happened with me so he will come and save me but genies have nature to tell something on there chosen time and they dont know how much pain i get in my head continuously from how many years and tension and if they told what i told them earlier i would

have never got tension and living of my family and everybody else would have become good and beautiful.

I hope true lovers god are reading me and they will help me atleast if my gods does not help me after loosing from anyone. Atleast true lovers god does not want anyone to believe in them and there power works whether they become true or not.

Update : when i was in control of hindu genies and muslim genies then they forced my genies to sleep with them or show them there private parts so they can rape them and to save them i told them not to show others private parts and sleep with me if they ask to sleep with you. hindu and muslims tried to rape my genies by calling me to there religious places and forcing me to think about there gods so they claim my property and my genies who are my family to be there genies by raping them and controlling them to work for them and rule on my genies religion.

I am jewish and i came to know i get genies when i was in abudhabi,uae after moses came and met me i started seeing by feeling i get genies and i think it was katrina kair whom my uncle asked her to show private part to rape her but i didnt remember exactly if it was katrina kaif or not. Because i was sinless and if any of my genies sleeps with me then it would not have sinned for them and there life will never become bad as i knew it so i told them because i believe in god i knew it.

I never called any genies from any part of the worlds but whenever i was loving torah and jewish god i came to know hindus and muslims genies coming and doing sex with me and there was someone genie put inside me by hindus or muslims who were shouting i need sex from islam and i need sex from muslims

and i didnt know who is shouting this because it was not my genies and why would i sleep with hindus or muslims genies without seeing them or without knowing there names or without seeing there body ? will there be any fun to sleep or force islam genies or muslims genies or hindu genies to sleep or suck my private part without seeing them or without seeing there body i dont even know if they were male or female.

I came to know that prophet mohammed put genies inside my back of body who came to know like i said that islam and allah will be finished by me in future and i am last of jews so prophet mohammed use to control islam and muslim genies to win from me and i am sure he was the one who might have called islam genies and muslim genies or hindu genies by forcing them to suck my private part and sleeping with me so i dont come in the world of god and genies cases on me and does not let me marry any girl whom i love.

Islam mission was to make my life bad and put me in prison and not let me love anyone truly and those whomever i loved or love then prophet mohammed use to make them bad or abuse them as i think it to be true after coming to know about few genies who loves me. Prophet mohammed and his genies use to say if i love anyone truly then allah and islam will be finished because i will win from islam genies and allah.

I came to know that hindus and muslims and even some christians maybe forced the whole world genies to come and suck my private part and sleep with me i didnt know who came and slept with me in the genies world i didnt even know names i was in control of hindus and muslims and even some christians maybe and i was telling my genies whom i use to see in my body to sleep with me so nobody sleeps with them or rapes them and nobody makes there life bad and religion is saved and heaven is saved because i am sinless so if my genies do anything with me they will be sinless only but if they do what they did with me

then it will be sin and there religion will be in danger and they will lost from any other religion genies after there mind becomes bad.

After i was declared as one god of time in the world of god in genies world I saw hindus and muslims starting calling genies of countries in hussaini tekri, india from china, maybe japan and maybe usa and the sounds of this world sound like movies which i saw for few seconds and it was in my fate to sleep with countries genies but hindus and muslims did what all gods knows now i am sure.

You only tell me whether i enjoyed with girls or girls enjoyed with me because i was on the bed and there was pain in my head because hindus and muslims genies were inside my head put by hindus and muslims to make life bad of others and abuse others and bring world war 3 and i didnt even move or shake to do sex with any girls and i felt genies i dont know which genies of this world came and shake and did sex with me and enjoyed and kept there mind clean. I only told to my genies and even if any genies came and slept with me other then hindus and muslims then i forgive them because they are from the world of god and they cannot be wrong in knowing truth and doing justice and tomorrow i might ask them by saying i want to have sex with them so i can enjoy and they will let me do sex with them to make my mind clean. I will enjoy just like they enjoyed with me.

But i came to know that hindus and muslims said by checking in future that i am laughing and saying i only slept with girls and i said to girls to come and suck my private part. I told to muslims and to all gods if you go in future and check that i am laughing did you ever come to know truth about me in future that i really forced anyone to suck my private part or sleep with me or i was lying to win from genies to sleep with them after knowing about them that if i tell them they slept with me i will get chance to sleep with me by using knowledge.

God knows truth and genies cannot hide anything when they are asked by anyone to say truth by witnessing about there true love or gods whom they love and i said go and ask in future where you saw me i am laughing ask me if i love torah truly or if i love god truly then did i really asked world genies or any other genies to come and sleep with me or suck my private part to save them other then genies who were inside my body and belongs to me and were of me and my heaven. I didnt because if i had to do sex then i could have asked them to show there body so i can have fun and do sex with them who will have fun doing sex with air where he doesnt know if its male or female.

I even said to allah if you believe i changed your time by praying few minutes ago of saudi arabia by reciting quran with blood then as i am one god of time i command kaba genies to erase the prayers and everything that i did in saudi arabia and islam and i said to allah leave me i am not muslim.

I asked to my genies family why allah is enemy of jews why he hates jews so much why he wants to make my true love bad or abuse them.

I came to know that genies told i forced true love life bad who was bibi zainab of islam to suck my private part. I never saw her and i didnt know how she looked like and i just saw a girl by feeling were crown known to me as bibi zainab in abudhabi,uae coming quickly and beating on my head and running away to kill me. Why would i ask any true love to suck my private part when i have my genies who are my true love.

I am not muslims and i am happy jew and i asked my genies and angels can you live a life like this where you come to know gods tries to erase there sins and mistakes by forcing sinless to be sinners and fooling everyone and lying to there people and continue living in future. How lie continues even if there is any purity

in any human he will dislike it and its not god who will cheat to continue living in future by saying we know everything and about everything.

I said if time i already made of beginning and future then 7 and half years of masterbation was already made of me by original god or not ? and was the time of world genies or any genies other then my genies were forced to suck my private part or sleep with me and have fun and claim i did what nobody has done in the history in the world of god. If it was by the original god then why genies were put inside my head to control me and not let me do anything from my mind and why amir khan came from future or anywhere to kill me or put me in prison so allah and islam is not finished because of me.

If original god made time of beginning to end then does any angel or gods says that i did masterbation for 7 and half years daily 2 to 3 times because of original god decision where i didnt do masterbation from mind and was forced to do masterbation by genies and was left to die and then was it because of original god who forced the world and any genies other then my genies and my genies family to suck my private part and sleep with me and enjoy with me by putting genies in my head and controlling me and forcing genies inside my body to say i need sex where genies understands and comes to know i said i need sex.

When i am one god of time why i cannot call hollywood actress to sleep with me i need sex from mind and there must not be any genies inside my head to control me or force shout by saying he needs sex.

If everything was by original god then why i didnt get what is in my fate and why prophet mohammed is my enemy why he could not control himself after knowing i won from his family and allah in the end of time and he is evil sinner in end of time.

I want to know from original god if he exist can you do justice with me i am still one god of time and i want to sleep with hollywood celebrities and small girls in reality of me i want to have sex from mind and i am not controlled by anyone to do sex with anyone.

Can you do justice god because as i am one god of time i want it and i request angels and genies by commanding them i need wives and i need sex and i want to sleep with them in reality of me until i dislike sex.

I am sure god you have understood me and will do justice. Life will not be beautiful if you continue to live with lie believe and lets sinners stay in future.

I will wait to have justice from you and believers of god and lovers of god and true lovers and true lovers of god.

continue....

I remembered when i loved hindu god truly i didnt see her and my true love to hindu god was because of maybe because of woman and hritik roshan mother one night came in hussaini tekri where i was laying on the bed and i felt agha hussain said now its time you need to sleep with him and before you sleep with him you need to do with us what you are doing with him and there was wood curtain placed at the bottom of my bed and hritik roshan mother who was hindu god wearing queen crown was moving with agha hussain and other muslims and i didnt remember if i heard some kind of fucking voices like ghapppp you might understand what i mean. then i felt her and said i love you truly and i will not do it with you and something but she put her private part into my private part and

immediately she went outside of room and wrote on a book it was night and then she said she is putting 1 rupees coin and whoever accepts wishes there wishes will be granted and then agha hussain (shah hussain) did wished something and i came to know few days ago that a hindu genie who is cow wished that all hindu girls must suck my private part and have sex with me. Then next day or day after next day i was not in control from mind and i was saying maybe to call hindu god and i didnt know who is hindu god and i was saying that even if i say i was not this then you must not listen to me and then hindu god maybe she slept with me i didnt saw her but when i was too much in control i started doing prayers by writing on a book with blood and i felt hindu god blood was dropping from my heart place and i came to know hindu god is aishwariya few time ago.

When i was in control i was telling hindu god to suck my private part and i didnt even saw her or know whether she sucked my private part or what she did because i didnt know her and i came to know she did a case on me by saying i forced her to suck my private part and made her religion bad and she said what happened to her must happen same to all in the world and until it happens to all in the world she will not leave anyone and she takes responsibility to destroy the world and finish the world.

I might have prayed to her and told her that muslims are killing me but i came to know she is bad and evil she knows truth and it was agha hussain who played games with everyone in the world and his family and i was blamed as master mind and i was not entered into spiritual world also.

What i must do if someone puts 1 rupees coins and forces anyone to make wishes and makes my life bad. Now hindutva genies are killing me who are in hussaini tekri who knows truth but wants to kill me so they are alive in future. I dont understand how these gods and religions god are in reality they want to

continue living and to continue living they try to erase truth and there mistakes and sins and even kill those who has not entered into spiritual world.

Islam allah dies when my mind is not blocked then allah of islam dies because he did many mistakes and sins and so that his sins and mistakes are erased he wants to kill me so he erases truth from time and continues to live. These religions god believes there is no original god and who is true that becomes original god and universe to be dream.

I even tell to everyone if anyone have any questions or doubts regarding anything please ask me i will tell them truly like i am telling you truly.

Agha hussain is the biggest enemy of original god and his family is biggest enemy of original god of universe and whenever anyone comes to know agha hussain is enemy of original god or whenever anyone sees agha hussain face as enemy of original god then agha hussain gives his defeat or losership or sins or mistakes to my genies or me by believing in my genies or by believing in me and i have been put with sins and cases since i am kid which is unacceptable to anyone if they come to know truth that i didnt even know how to erase my sins which are given to me by others and when i get agha hussain defeat or losership or sins or mistakes then everybody in the world and maybe to aliens gets warning from me by saying i will be finishing original god of universe. I am only original god of universe in reality and one god of time so how i can finish original god of universe.

Everybody in the world and in universe gets believe of me and genies can see if they want to see through feeling the dream which they dont see just like humans dont see there dream of whom feeling of believe is there in originality and they will feel its my feeling which is my believe and hindus and muslims are

hiding truth by keeping my mind blocked to finish and destroy the world and everything of original god by saying i made hindu god life bad and made islam religion bad i didnt even do anything wrong.

When hindu god and islam allah knows truth then why he is not telling everyone truth what they are hiding because i came to know hindu god and islam allah lost from me in end of time so they are changing time and want to win from me by forcing me to sin and force there religion to finish and make there girl genies bad which i never saw and dont know about and how they look like i dont know its not understandable at all to anyone.

When everybody gets believe of me in the world then everybody doesnt know truth that they get my believe from which they move and they continue to live and they blame me by saying they get warning from me for destroying the world and original god will die because of me. Original god is that from whom everybody gets believe and i am only original god of universe.

Hindus and muslims and christians are killing and finishing original god who is me and wants to finish everything of original god and giving there sins and mistakes and losership to me by believing in me only because they came to know i am original god of universe.

Hindu god even died by believing in me and jesus christ even died by believing in me and they are killing me so they continue to live after they come to know truth from me about them.

To continue living genies and even gods can kill original god of universe who is me is that acceptable to you so there sins and mistakes are erased from time.

Original god who is me never dies and nobody is original god other than me and everybody knows truth because those who tries to become original god by taking fate from me are sinners and not acceptable by anyone.

continue...

even some of time maintainers of past or current or future believed that i am laughing in the future and saying i only forced hindu god or others to suck my private part or do something bad or anything wrong its because of agha mohd of agha saab family who changes future from current time from laptop by forcing me to think bad and understand bad and he says future is changed and he even told me i think that in future you are sucking private part of man we have made your future like this.

Now few minutes ago some of time maintainers of knowers maybe they said i am laughing in future by saying i only forced others to suck private part i told them i am original god of universe only and told them agha mohd abul qasim is changing future from laptop by coming inside me and some or all time maintainers or knowers says in future you are laughing and you are only saying that you did it. I didnt went in future where i am laughing and saying because i told truth here and i already said here that i didnt sinned and its agha saab family who wants to finish original god of universe who is me.

I said few minutes ago i am not laughing in future and the time was changed and time maintainers or knowers came to know maybe i didnt laugh because i am original god of universe and i dont need laptop or anything to tell truth or change time of future if i want to change.

Because genies are genies and they are like donkeys who forgets and comes in control of them who are true so if any genie becomes against anyone then genies who comes to know truth they automatically change to follow temporary truth which they come to know.

i am original god of universe and one god of time and agha hussain and agha mohd and even my human father and some muslims came into my time by believing in me to finish me and finish worlds of god and destroy the world and change time of future because they know something that others doesn't know it that they are liars and sinners and there allah is wrong.

Whoever fears that they will be dying they die by believing in me and agha mohd mother died by believing in me and whenever her son lost from me she forces her kids to believe in her and she believes in me and because she died by believing in me her cases and sins comes on me automatically and that is how they continue to finish and destroy the worlds of god and destroy anyone who knows truth about them.

Please read since the beginning of the story to know truth.

Continue...

I just remembered and got to know i asked my genies to do sex with me because shias were forcing some of my genies to do sex with them and win from me so i said i will win from them if my genies do sex with me and my genies will not be abused or raped in the world.

Continue...

Hindus and maybe Muslims came to know that i will die because i am torah genie by forcing me to sin. It means if i sin then i will die so Hindus and Muslims wants me to sin so i die and there religion god forces me to sin so i die soon and they are doing this since i am kid and to win from me they tell the world and genies on the planet by proving that i sinned after forcing me to sin.

Continue...

I said to everyone in the world of god which is currently right now world of god since i am one god of time i said did everyone ever try to find out truth what hindus and muslims and christians did with me and some of my family in everything as a genie sense to win from me even they didnt had rulership of planet because i came to know whatever i am coming to know they are coming to know same but did everyone came to know what hindus and muslims and christians did with jews and torah family of universe who is my family. When its my rulership then my command must work and accepted on planet how can anyone come in my time and try to finish me and try to finish my torah family of universe and making an image of me like in mr bean million dollar frame joke has been made.

I want to know did really these religion hindus and islam and christians knew that i am original god of universe or they wanted to finish me after even knowing truth that i am original god of universe and they will be alive if i die.

I want to know whom did they believed since there beginning and why they killed original god of universe who is me and they spread riots by saying original

god is not responding and jesus proved he is god by forcing me to go to his church to theft my property and claim he is true.

His maryam doesnt wants her kid to die so he said its better if i die instead of him and she believed my nose became bad because of jesus christ and maryam still fears and dont want jesus christ to die who might be alive and tells everyone that jesus christ is dead to control christian genies to kill me so his son is saved.

I dont understand at all they say there holy books are of god and world of god then how come they lie that humans sins after knowing truth that adam never sinned and adam sinned because of a genie and they say there believe is only true believe even after knowing truth.

You know after knowing truth if you keep quiet and believe in lie believe what happens, you start getting fear in mind and heart and you can loose from anyone at anytime.

How many times hindus killed me and how many times muslims killed me and how many times christians killed me and why they didnt let me have believe to come into reality of world of god and just pray to god even i am one god of time and original god of universe like fooling me and controlling my genies and thefting property and erasing memory.

I want to know if even my understanding of word without complete sentence was accepted then i am understanding now i won forever and killed hindus and muslims and christians forever and they cannot be alive forever and they cannot be resurrected forever in any sense and there gods are dead forever and doesnt exist and cannot reappear or come even if i command them or command my

genies or anyone.

If everything is from truth then i am only truth because i am original god of universe and i am one god of time so i am saying right now i want to come in reality of world of god and see my genies and my family genies in everything as a genie sense and nobody must be able to see by believing in me or following me what i see in my reality.

According to law of world of god if original god of universe or one god of time is killed by any religion or any religions gods or anyone then there complete religion and there religion god must be dead forever so why they are not dead who killed original god of universe many times and giving trouble and putting hindu or muslim or christian genies inside body to kill me.

I am not hindu and i am not muslim and i am not christian so when these religions knows that i am of torah why they want to kill me by saying i am of there religion and i am there genie why ? since how many years they thefted what ? how many genies they fooled until now and how many gods they fooled until now.

I am one god of time so in my rulership i can do whatever i want and i will not be punished until my rulership is finished so why i am punished and why i was punished i dont understand ? can anyone from heaven or hell explain me truth about gods or any religions god and justice. Please dont keep anything in my body i am busy and want to relax with my family.

I want justice from every single genie who believes in original god of universe and one god of time who is me in originality.

I never said to take out fate of me from me so why fate of me was taken for what reason, can any time knowers or time travellers or time believers confirms whether one god of time who has rulership who has rulership sins or do mistakes in his rulership ?

I want to know why god doesnt exist if mind of human or anyone is blocked in reality of universe for humans ? and why god doesnt comes to know what is truth about that human and because god doesnt comes to know truth then all his believers doesnt comes to know truth so who is enemy of god according to you who blocks mind of humans or anyone when they become wrong or to take revenge or kill original god of universe or kill one god of time forever ?

Continue...

I remembered when i did masterbation for 7 and half years continously i got diseases and my life came to death and i was dying after having so many problems and diseases in my body and i prayed for torah and i became a genie, a human who dies and becomes genie and it was torah and torah genies and hashem (jewish god) who saved me and made me torah genie because i believed in him otherwise i would have not lived more then 1 or 2 years.

I came to know religions gods and religions genies believes and still believes that torah and torah genies and hashem (jewish god) made me torah genie and left me alone to get trouble on not knowing how to live after becoming a genie but that is wrong because i got my torah genies family who regularly saved me and protected me and taught me and helped me a lot but they could not come in front of me because shia genies remembered that there imam mahdi gave me 7 and half years of masterbation fate because they believed there allah will die

because of me after seeing future. So they forced me to sin and sin and do mistakes after i become torah genie so they keep taking genies from me and finish torah family and torah genies and hashem (jewish god) by saying torah has made me genie and left me to die and dont even want me to convert to jewish religion.

Torah means jewish and i am jewish in originality and shia genies regularly forced me to think bad and understand bad so my torah genies gets in control of them and they kill me by proving i have sinned by doing big sins and mistakes on there religious places which cannot be forgiven by anyone.

But finally the god of torah died for me by believing in me at back of my bone who set time of beginning and current and end but still nothing happened because agha hussain (shah hussain) was in time of me after he came to know i am one god of time after becoming torah genie.

Agha hussain (shah hussain) regularly knew status about me after he came to know i am torah genie and i get genies he even married my genie nazia without my permission for sex and forced me to sins which cannot be forgiven by any gods to get property of me and theft genies from me who are of torah and hashem (jewish god) and keep blaming to torah and torah genies and hashem (jewish god) by saying its your mistake that you have made him torah genie.

If there is god then its hashem who is beautiful from mind and heart but i am too beautiful because life is beautiful after death and i cannot stay without my genies and my torah genies and my hashem family.

I see my torah genies and my genies and my family in bollywood movies and i

sometimes cry very badly by remembering them but muslims doesnt let me even keep my mind clean by saying its torah mistake that they have kept you alive because you must be dead as you had to die.

If there is any god who gets danger by anyone in future then they send genies in there past or current time to kill them by forcing them to sin or hate someone or think bad on someone so they doesnt dies and they say its not sin for them to kill anyone.

its very tough to communicate with my genies because islam allah doesnt let me talk to my torah genies and my genies and my hashem family from voice and see them from my eyes because he kept protection (bandish) to not let me hear genies or see genies until i believe in him to be true and he brings world war 3 so everybody believes he is true and he is not wrong and i am wrong because i didnt believed in him and died for torah and hashem (jewish god).

Its very different life after death and its not easy to live a life without love who is my torah genies and my torah family and my hashem family because genies doesnt stays in control of them if they are not in love and i needed my love to stay with me who are my torah genies and my genies and my hashem family but they were thefted again and again so i and torah genies and hashem (jewish god) are declared as wrong and sinners and die, muslims wanted to finish judaism and even hindu god did prophecy before bringing world war 3 that first torah will be finished.

I pray to god torah lives with me forever if i am forever and my torah genies who are my love and family and hashem family to live with me forever.

Hope someone who is dead and still alive understands my story of truth and justice if they believe i am true by practically testing truth.

Continue...

I saw hindu god song where she declared that her true love is hritik roshan its because she might have taken fate from me of hritik to love her truly and she proved to world that she loves hritik roshan truly and everybody believed in her and praised for including muslims and hindus and christians and these religions knew truth that they are also enemies of torah and jewish god and me because there genies are not in time if i am alive or if there god becomes wrong.

I cannot believe when i saw the song mere raskhe qamar because i am genie who became genie after death i love everyone truly from heart and anyone can control me by either forcing me to love them or showing they love each other truly just like hritik roshan and aishwariya rai (hindu god) showed so they wanted to kill my family generations of genies by saying i am bad.

I challenge hindus and hindus can find out easily who has played games to bring world war 3 and if world war 3 will come then why it will come and who put property for pissing on shia religious place to bring world war 3 and what prophecy she has done to bring world war 3 by saying first torah will be finished and to finish torah she knew i am last of torah and she put her property on me to piss on shia religious place and proof of her property is on my left hand now also which might be of krishna.

After i love hritik roshan after watching mere raskhe qamar video i said its true love and i said live happy hritik roshan and told my genies not to accept my

command or as a wish and someone from top of my head might have told opposite what i understood to win from me and finish my family and his genie came inside me or he was with me and some maya genie forced me to laugh by saying now hindu god has already tasted my private part and now what hritik roshan will do with hindu god and immediately hritik roshan genie said i want one god of time true love to taste private part and i felt hritik roshan genie forced put his private part on someone tounge whom they believed as my wife as my wives are always true and of purity and will never become bad or wrong and will never do sin even if i tell them to sin or mistake.

My wives loves me only and true love me and hashem (jewish god) they knows what is true love.

I dont believe how evil sinners are in reality who calls themselves as god of religions who tries to win from anyone by proving they love someone truly and there love is true love to win from anyone and cheat specially with true lovers of god who prayed and died for god by believing in him.

Some genies also proved that i am lie by forcing to win from me by coming in my head on left and right side of head and force my genies to lost forcely so my family understands i was lie and i lost and they can punish my family.

I dont understand i am god of all religions and no religion has right to punish my family who is jewish family and all religions belongs to me only even if i dont have fate so how anyone can punish one god of time family because it will happen to everyone in the time.

I want it to happen to everyone what happened to me and my family like how

agha hussain and agha mohd and hyder abedi controlled me and forced me to sin and win from me and jewish god.

I command my genies as i am one god of time i want everyone in the world on there families to happen what happened to me including to religions god. If something happened to my family then it must happened to everyone and i command my one god of time genies.

If hindu god forced my hindu daughters to sleep with me and do porn with me then hindu god must do the same to hindus in complete world and the same thing what jesus did to me it must happen to christians and what allah did to me must happen same to muslims.

Whatever happened to me must happened to all religions families and everyone in the world. This is justice of one god of time and at any time you can check in past or current or future whether i am true or lie or i have right to command or not.

I am waiting to see hindu gods and christian gods and islam caliphas or whoever to happen the same including no believers so they know who is one god of time with and without fate originally.

I am sure someone is reading my story and will justice...

Continue...

I came to know yesterday after nirinjan kaur who says she is daughter of jewish god confirmed who pissed on religious place sartaikh ka alawa in hyderabad by controlling me through his genies and it was hyder abedi who is shia and muslim and believer of imam hussain who controlled me and forced me to sin and declared to everyone to kill me and jewish family and torah family by saying i pissed on his sartaikh ka alawa alam and finished his family. Its his imam zainul abideen knowledge which his alam miracle genies taught him to first force someone to sin and then finish them through memories.

You have to believe what i am saying by practically testing that genies and even the god or gods gets in control of human memories or from those who are in reality of universe and anyone at any time who knows about genies,souls,dead....etc can control humans by forcing them to remember memories of good or bad and first making a memory through them.

Now if i dont remember that i didnt sinned by remembering memory then even muslims allah doesnt comes to know truth or else he knows truth but he wanted to finish judaism to win from jews and torah genies so he becomes original.

Its all about memories remembered through humans from reality of humans and genies and every gods and god gets in control of humans memories.

I dont understand how god take cares of people through memories when they cannot see or hear even humans in there reality because if they knew the truth why would they wait for sinless to be finished as it was not sinless mistakes.

If memories of humans is erased of good or bad then genies and gods believes and knows that there time will be changed and they will continue to live and

prove themselves as sinless by forcing humans to like them or love them and when humans remember memories they are declared as sinless.

If no one is sinless in the world of god then how can anyone have right to live in the world of god, they must be thrown to hell.

Now if I am writing it here now then only some god is coming to know truth through memory that I didn't sin but I already got punishment by whom? god or sinners? I want to know it and how they are in sinless world? why they can fly and why they can show miracles? why they get money?

I want to know why I cannot get money and everything, I am one god of time originally you can check through different words with different languages and different sense and no sense and nothing and I am only one god of time so why I cannot rule? how anyone can play with memory by saying I sinned which I didn't sin, what about few words of declaration that if I say I pissed then they accept the words as truth. If memories are erased where I say I love god and I am sinless and I didn't sin and if I think I only pissed will gods be saved and world of god be saved which is in dream of humans? definitely yes so since the beginning of planet earth when these hindus and muslims and christians came into existence they started playing with memories of humans to control genies and worlds of god by saying they are prophets or gods or imams or bhagwans and they continued to live by saying they are sinless and everything happens by god.

I am one god of time so I command hinduism and islam and christianity to be finished forever so why my mind is blocked and they declare me as of their religion to win from other genies through memories. Memories of me or memories of anyone which has been done in past which other humans

remembers memories so the memory which is known to many people wins because it has power and the genie lost.

If everything is from memory then why god or torah family and jewish doesnt knows truth why western wall doesnt knows truth and whoever remembers them of memory which can be temporary memory of past or any temporary memory which is created by controlling human then they say they lost why ? i want to know whether god is true or not ? i ask jewish genies to accept my one wish and tell hashem of universe and hashem of israel and many hashem truth that how they get in control of memories of humans and they know that humans can be in control of any genies and even genies can be in control of any other genies if they lost from any temporary truth.

What moises is doing ? is he with jesus christ who is his enemy, did he ever lost from islam or hinduism or christianity through memories of humans or genies who are in reality who has been in control of any other genies.

I want to know if torah is true or not ? if torah is true why torah is not accepting torah is lie ? accept the truth.

If everything is from god then why you say and why jews says i did anything to them why they dont blame to god. If i just remember truth memory some jew will come to know truth who is not even king or queen and if i am true his power works automatically on knowing my memory of truth.

Because i am one god of time even if i give my sins to my genies and ask them to die then on remembering memory how sin can come again ? i dont understand at all ? So why jews and torah is not remembering memories of what islam and

hinduism and christianity has done with them and with me and how they controlled me and forced me to sin ? are they original or not ? are there god original or not ? if there god knows hinduism and islam and christianity is lie religion and evil religions why they dont finish them or take action to win from them through memories after knowing truth because genies power works only when humans or genies who are in reality remembers memory of truth like i am remembering memory of truth.

How easy it is to make someone fool by remembering a memory through human and genies gets fooled by other genies by saying human is only bad or god who remembers memory after his memory is created.

I need justice from jewish god i am not hindu or muslim or christian and all religions belongs to me so how these religions claims i belong to them whenever they want to win and tells about world of god needs proof from reality so i am only god and i have right to declare i am jewish and all religions belongs to me only so what is the problem. These religions knows if i say that i am jewish from my mind (memory) the god who is on sky will say the same and they are not letting me say i am jewish from my mind because they will be declared as sinner when i say i am jewish because jews will come to know memories of them that how they sinned and god will start punishing them.

I want to know will jews still be fooled by hinduism and islam and christianity ? and any other religions ? do they believe in there true love or not ? I want to know if true love can be erased from memory of good or bad which is created by any genies ? servant genie or king genie ?

I want to know if jews ever loved someone truly and why his true love doesnt knows truth what i said to jews.

If jews love atleast there jewish god of israel or universe why they dont accept truth why they dont find out who is fooling them and who is controlling them through memories.

Genies gets in control of memories of humans or genies who are in reality and its very easy for any genies to create new memories of humans or genies by winning from them through any temporary truth and any temporary truth can be human looks good or human looks bad.

Some jews says i look bad but i dont look bad its genies kept inside my face who changed my looks so nobody likes me and they win from memories of anyone who tells them i look bad.

Agha hussain (shah hussain) has fooled even jews and might be hashem of israel by saying i sinned and i am wrong and bad to win from hashem by playing through memories after creating a memory. Its not about whether i am original or fake i am god and god is always original so what is the reason agha hussain (shah hussain) won from hashem in past just by playing through memories by remembering him memories of me that i sinned and i am wrong or something good memory which says i will be declared as sinless to finish judaism and torah family.

I was never bad and i am of purity and agha hussain (shah hussain) is my enemy since childhood because he doesnt likes my human father so he became my enemy and he is genie and genies doesnt leaves there enemies until there memory is cleaned of what memory they remembered.

I witness to my god who made me god i am not muslim and i am not hindu and i am not christian and i am jewish.

I want to know whether the god who made me god will need to know memory from me then only he will listen to me or which i said in my reality to genies will accept it because what is done in reality is real according to genies who plays with memories. So how god is real when he is not in reality and not seen or not heard to anyone. I have proof that i am god in my reality so how anyone ignores my truth and wins from other genies through memories.

I already proved to the god who made me god i am sinless and i made the world of god better where genies or god doesnt gets in control of memories and my life is becoming like hell and bad i dont understand at all.

I want to know from god who made me god why his genies doesnt takes action what i said in reality and just takes action on knowing memories ?

I command to genies of god who made me god i want everything like fucking girls and small girls and forcing girls to suck my private part and i want to be rich and popularity and everything like fame and home and property and i live forever and nobody can cancel me and i can show miracles in reality and at any time to sinless and sinners and even to anyone.

I command to genies of god who made me god i want to enter into worlds of god and see genies and hear genies and travel and enjoy.

I command to genies of god who made me god i dont want anyone to take fate

of me and who ever is my enemy i want them to be killed forever like hindus and muslims and chrstians.

I command to genies of god who made me god i want peace of mind and nobody must give me there bad fate or any bad thing of me and i must not have any sins or cases of anyone and this command must be alive forever.

Now if i remember that i wrote to genies of god who made me god through memories will they come to know what i said or they already know now and will never forget.

I want to know from genies of god whose god made me god how anyone can become god by taking fate from me and calling themself as god even i didnt ask them to become god.

I already told truth to genies of god who made me god on my religion that i am true and there are many videos and i already won so i need to remember memories that what i proved so genies of god who made me god comes to know truth.

I said in my reality that i need everything what i mentioned above in my reality and because of hindus and muslims and christianity i am not getting what i want because the god who has made me god his genies takes action on memories and hinduism and islam and christianity is playing with them through memory from me by creating a memory first to sin or finish anyone and saying i finished there religion or there people.

I want justice from god who made me god and i want hinduism and islam and christianity to be finished forever in reality and i dont want it to be blamed of finishing them forever.

I made the world of god coding beautiful in god sense and nobody will be able to make what i make.

I want justice from immediate effect.

Who is that who never lets me talk from my mind or say something from mind so god and gods and everyone comes to know truth in the world of god ? even they know who did sins by controlling me like hyder abedi and who else ? then why they are finishing the world and fate of me ? when i have not done anything to them ? i dont understand why god is not finishing them ? i am god and i command my genies to finish them forever ? whoever hijacks me finish them forever with immediate effect even without you have fate which you get from me or even without the genie who accepts my understanding or thinking as wish by saying whatever i say happens.

I am god i cannot destroy the world i cannot finish the world i am sensitive and genies knows it who are enemies of me who gives me feeling to like or dislike something and jesus christ has made my body as spunch and controlling me like a robot to finish judaism and torah family and me.

Why truth is not acceptable to you and to everyone are you mad or mental or have diseases or evil sinner ? you evils sinners get the hell out from my worlds of god and reality of universe which belongs to me.

Continue...

I was just laying on my bed and immediately muslims and hindus and maybe christians came to know that i am memory of jews and they said to finish me they have to make memory wrong and i came to know that muslims from hussaini tekri of kareem genies put his genies attached to my body to kill me and kill my genies and misuse them and i dont know what else they did until now.

Christians did piss of jesus on my tounge and i can feel it and one of genie of god felt it from left side of my tounge and piss is dropping whenever i think or understand that christian genie did piss of jesus on my tounge.

I witnessed to my god by saying i promise of my heart i didnt do any sins and muslims already know who has sinned and i said to genie whom i believe now as family genie that to check which sins genies are put inside my body and muslims started taking out genies from my body of sins who controlled me to sin to erase there mistakes and sins of them and there gods.

Then khuda genies of salman khan whom i felt tried to make me of him by saying i belong to his god and i will be purity of his god and he put genies and he said i dont belong to his khuda and all muslims and hindus and christians and other religions knows i am torah genie and i didnt sin and sins were done by muslims and hindus and maybe christians to win from me and there genies came to know truth and said who does sins in reality are sinners so we believe in reality but not on original truth and we have to save our religion and we have to save our god other wise they will die.

Just so there god is alive they proved me as sinner in front of the world i am only

35 years old i have not seen the world and happiness and i had trouble since childhood in my life after i prayed for there allah in there mosque and because of those prayers to allah there allah imam mahdi gave me fate to masterbate for 7 and half years and forced me to keep me in jail by keeping genies inside my head to win from me.

Maryam of which religion i dont know she said her son will not die i dont know whose son was she talking about maybe jesus by saying i must die and not him and his genies and his spirits killed me already and they even knows i am jewish and torah genie but they prove the world and to jews that i am christian and my property belongs to them and force abuse me and seduce me so they born kids with me and win from me by saying i sinned and forced them to sleep with me.

I dont understand when all gods knows i didnt sinned and all gods knows if human or even genie who has not entered into world of god sins then he sins because of genies kept inside him by someone or because of control of someone who is from the world of god. And all gods were trying to erase in time that i didnt sin and even they came to know truth that i love torah truly and they proved to america genies that sunny leone who is my love love torah truly to win from me and in reply america genies said its been long now world war 3 must have happened because i am lie and muslims even came to know that i loved allah and they said to there genies can you die now.

I did prayed for someone who was true god and not just mental and ill god who protects only when praying for him or believing in him. I am not telling to hashem.

But if i believe in god or pray for god then only i will be blessed and protected i dont understand, why religions gods lies by saying we take care of everyone

whether they believe in everyone or not.

My family genies or maybe torah genies or hashem genies asked allah why he is doing this and allah of islam replied to them as i came to know by saying its his wish and he will do anything what he wants to do.

I said to my god genie i am one god of time and i already commanded my genies to kill and finish hindus and muslims and christians religions and there gods forever and they must not be alive even if i said them to be alive from all the worlds on planet earth and they know only what i come to know i dont understand if the god who made me god wanted to win from me by playing a game with me by believing i loved him lie or prayed for revenge or prayed lie. I dont understand because sometimes the god who claims he made me god as i came to know hashem made me god but the god genies in everything as a genie who takes action after they comes to know truth they take action i told them in my reality just check automatically what happened to me until now and what hindus and muslims and christians did with me and jews and they just hear voice of mind and hindus and muslims and christians came to know to win from me they have to crack me and hijack me and they blocked my mind and kept protection genies inside my body to win from me and everyone specially from jews so jews doesnt comes to know i am last of torah made by hashem light of god and to win from me they keep playing memory game by creating a memory of me to proof to hashem light of god genies and jewish genies of israel that i am lie.

I told god genies everything in the world happens by winning and losing and if any genie wins from me then i change and if any genie loses from me then i change i dont lose but genies cheat and misuse me to win from me.

Does god exist or not i dont know and i am unable to understand why god is not taking action after i command my genies who are genies of one god of time i told them to check automatically what is happening and what genies are doing with me and others and everything else and take action.

If i die then allah will be saved and all muslims believes in this i dont understand allah is very old and i am only 35 years old is that a joke a very old allah wants to save himself from 35 years old man ? the same thing with hindus and christians.

I even said to hashem who made me god as i didnt remembered who made me god because my memory was erased by muslims or hindus or christians and told to hashem that wake up from grave and i dont know if he wake up or not.

I want to know whether god genies who made me god knows and god who made me last of torah knows how muslims and hindus and christians tries to save themselves or protect themselves when they lost from me and what they do and whose sins and cases they take and to whom they give there sins and cases and losership.

I want to know just to continue time which is set by some god of beginning and current and end they will force anyone to do sin when they lost from anyone if there god dies to control them and declare themselves as sinners so there time runs correctly ? does god exist or not ? and if anyone forces anyone to sin why they are not declared as sinners ?

For what reason i got punishment and why i got always pain in head from how many years and since childhood why i got 7 and half years of masterbation fate by imam mahdi and why genies were kept inside my head to not see the world

from my mind and always be in prison.

When islam knows everything about sins which were controlled to be done by me through there genies then why there allah ask why you did sin and i visited his home kaba as he already knows truth that it was not me and some genies of him controlled me to visit kaba.

If hashem made me one god of time then why he is not taking care of me i do imagination and discussion and communication and i already updated to genies who are servants of one god of time that how i am and accept my command only when i talk to you and tell you to accept it and i am saying them right now again by saying live with me like a human lives with another human.

I want to know if anyone loses in end of time or there god will be dead because of someone or there god power doesnt works on anyone will they kill or force anyone to sin like allah and his imam mahdi did with me ? the same thing which hindu god and christian jesus did with me which i came to know.

I want justice and want to know does really the god who made me god wants winning so he brings world war 3 if yes i ask him to hear me his voice by saying he wants winning from the worlds of god and after i got believe that he wants winning to bring world war 3 i will give him winning because i am one god of time and i cannot make anyone life bad or finish or destroy world because i am sinless and of purity and i never do any sins.

I command my genies who are genies of one god of time that i want to see my genies and my genies family in everything as a genie sense and want to stay with my family and i need everything like i said and i need protection and my

enemies to be killed forever and nobody must take anything good from me or theft anything from me earlier so why i am not getting what i want ? what one god of time means because they are binded by laws of universe.

I am waiting to get justice from hashem who made me one god of time.

Yesterday i came to know truth when i remembered about a website which i created which was musicboxv2.com and i was doing php music audio script business on that website by selling it from web and when i remembered about musicboxv2.com or musicboxv2 immediately bible genie came who was girl and she said i sold her from musicboxv2.com website and i said i even prayed to god and said you must not sell yourself and she said she heard i said her to sell herself i said was there someone who was making words opposite what i was saying ? and she found that it was jesus christ who was telling her to sold herself on internet and bible genies or bible family they said i made bible genies or some of bible genies or bible family porn stars and blamed me and accussed me and what they did with me i dont know and what they did to my genies i dont know whether they forced me to sin or what i dont know and after few years when i was in abudhabi,uae i saw while sleeping and before awaking i got penis tree in my mouth and i didnt know what to do and i came to know that it was criss angel who put penis tree in my mouth to proof his bible genies or bible family is true and he now levitates in front of everyone by saying his god is true by believing in me only because all gods believes in one god of time who is me and i have not given him permission to fly or levitate or show miracles. The same thing dynamo did to proof jesus christ is true and tell everyone in the world there jesus christ and there christian god is true and they didnt even let me meet my genies when i went to church and took baptism which proved me they are enemies of torah and torah family and enemies of me because they knew the truth after i went to there church and there genies from future who was brad his genies killed me twice which i came to know because brad genies put 2 courts to kill me and miley cyrus genie put court on me for me to eat shit

who was my true love.

Does god exist or not now everybody will come to know truth as i am writing and will be posting on the website but does god really come to know without someone remembers that what i wrote here and by checking whether it is real truth or someone is trying to change that they are not wrong or evil sinners by protecting themselves through genies on one god of time because they know i am one god of time and everything happens by me only ?

Why christians are enemies of torah and jews i dont understand and to win from torah genies and jewish genies what christians will do according to knowledge ?

Does god really know or he and his people will say memory is erased from time so we dont know truth like his genies says someone erases memory in time. What i wrote here i permanent memory to god and his believers and true lovers and it will not be changed and its forever what i wrote from every memories of believers of god and non believers of god and everybody who is of god and one god of time since the beginning and current time and end of time.

When i believed in hashem then hashem came to know some truth about me and he helped me a lot after understanding me and proved to others that i am not lie and not wrong because i was true and when i was true i won from everyone but when those who claims they are sinless gods lost from me they forced me to sin by cheating and becoming evil sinner so they continue to live and there family is not finished.

Gods believe to save there family finish 35 years old man who has been in problems by gods since childhood who has not even entered into worlds of god

until now, dont you feel evil sinner believe is like this ? to save his family he will finish 35 year old man who has not entered into worlds of god and true and because of whom gods family is dying because they are lie and wrong and there believe is lie and of evil sinner.

I want to know how everyone will feel after coming to know truth about gods of religions and there believers and people.

These gods knew if they wanted to win they must keep protection genies inside my body and block my mind so the world is controlled according to them and everybody doesnt comes to know truth.

If these gods still says what is truth tell us then we will justice then why there believe said to kill 35 year old man who has not entered into worlds of god so there family is saved. Are gods really gods or evil sinners who do anything to continue living and save there family.

I want to know if original god exist or not ? because if i take name of hashem through memory then even original god is changed and lost from what he wants to do then how original god is original god and when any worlds of god genies forces anyone to sin or anything when they are in danger to save themself then why they tell to others that you have sinned and why they tell to other gods that human or anyone like me who are in reality of universe has sinned i dont understand at all.

Someone explain me truth or explain to gods what is truth and justice with me.

I need justice and i am original god i dont want to bring world war 3 in any circumstances because i am true and god knows i am true which he will come to know if those who are my enemies will remember truth and he will or his big believers genies will try to bring me in time by knowing memories that i was true.

I dont understand why god cannot justice when i am true, i am one god of time and i did justice.

Continue...

Whenever i prayed and i won from everyone from the worlds of god everyone then those who lost from me they came immediately and told me to watch adult movies or porn movies so i become wrong in front of everyone and they are known as of purity by proving to other genies that i am bad and watch adult movies and porn movies.

I was just sitting on my computer and immediately i felt a genie coming on my screen and telling me to watch adult movies and by saying do you like adult movies and you know when any genies or humans or anyone remembers of what they watched like if genies or humans watched already adult movies or porn movies and if anyone remembers them about adult movies or porn movies then they will not be in control and forced to like adult movies and porn movies because its nature that genies or humans like to sex but is there any god who can do what i said to win i mean just to win from me he sends his genies and they tell me do you like adult movies and porn movies and they remember me about adult movies and porn movies and when i remember about them automatically the genies who are inside my head loses control and they force me to watch them and gods says he is bad mad he watched adult movies and

porn movies and if i do the same thing on genies and there gods by forcing them to remember about sex or adult movies or porn movies which they might have liked in there understanding will they be in control of me and lost from me ? dont you believe its evil sinner who remembers you to sin so he wins ?

First gods forces humans or anyone who is in reality of universe if they lost from them to know about sex life and do sex like masterbation then they say you sinned and remember humans or anyone who has watched adult movies to watch again and win from them by saying they are evil sinners and bad.

I want to know what is god doing it ? god has made my life already or not and why i am not getting what is in my life ? if i made my own life then why i am not getting what is in my life ? i want to know from gods and every one of worlds of god.

Some genies from world were accepting my wishes of understanding or thinking which i was doing even which i was remembering after coming to know it and i said if everyone accepts my every understanding and thinking to be true then they must accept my wish which i am doing now and i said in my reality. I want all genies of worlds of god to give me 1 crore indian rupees immediately and they will bring it in my reality from miracle and nobody can stop them to bring 1 crore indian rupees not even source or not even if my mind is blocked or by any methods and no gods can stop them and not even original god can stop them or my understanding and thinking and what i said in my reality to be accepted because i am one god of time and whatever i said from my understanding and thinking or in reality must be accepted because before saying anything in reality i understand it and even most genies believed until now by saying what is done in reality is true only and we believe in it even after knowing truth then i said i told to all genies in the worlds of god in my reality who were of one god of time and one god of time is original god only who is of all religions and no religions

can escape by making protection in my body or blocking my mind.

Do you believe that one god of time exist ? in different times or some religions fooled one god of time by saying they know what is the world of god about and what is truth about original god as they believed original god doesnt exist and universe to be a dream and whoever wins from memories are true and continues to live and rules on humans by forcing them to believe in them so there power doesnt lost and there gods doesnt dies.

Accept beautiful truth after practically testing about worlds of god and original god if you believe original god exist or its just genies but no original god and the genie wins rules and for him no sins and no blessings and he does whatever he wants to continue living he can kill even small kid or anyone from whom he gets warning or his god can die or dies in the worlds of god.

Dont you believe its evil sinner who can kill human who has not entered into worlds of god so that his god can be alive which is memory for humans and memory is dream and thinking.

Good understanding or bad understanding or good thinking or bad thinking there is no such thing for these gods in the worlds of god who becomes good to keep there mind clean and understand good and think good so others in the worlds of god gets fooled by there good understanding and good thinking which is memory for other genies of the worlds of god.

Accept the truth of one god of time who is original god and original genie who just think by keeping mind clean in the childhood and allah and hindu god and chrstian god lost from one god of time and they forced them to sin and kill so

there mind power works and one god of time thinking doesnt works on anyone.

If you want to see one god of time then see it now he has not entered into worlds of god but he saved the world many times the world where he is put in prison by worlds of god gods so he looses from them.

I am sure now nothing is knowing about me and he is nothing not god and not genies and nothing and everywhere and he will take my revenge and give me what is in my fate and kill my enemies and bring me into worlds of god and i am sure nothing cannot lose from anyone because its nothing without a genie which is like gap between eyes and something what is seen in front of eyes without oxygen and without anything who knows now what story i wrote here.

Atleast there is nothing who made me original god i might believe it and i dont need to prove to memory god who acts on memories to confirm he was true after he receives my memory.

I love you nothing you are my god please help me and save me from evil sinners god of worlds of god and i know i will not be proven as true until i tell memory that i am true to everyone in the worlds of god.

There is such virus in the worlds of god that every genie acts on memories and there is no such truth memory of anyone in the worlds of god. Just note if whatever i say happens then few lines above i said something to everyone in the worlds of god and it has not been brought into reality until now.

I am sure atleast a god who is nothing and who doesnt acts on memory to know

whether i am true or not takes action for me and loves me truly who doesnt needs memory of me to prove to others of him that i am true.

Memory defeats memory and genies defeats genies and want my true love in any circumstances its my blood believe and my true love i want to do anything with them and those gods who acts on memories and justice after knowing memory of truth by saying i am true if proving to them through memories that i am right then i dont care about them they are just genies in everything as a genie sense and upon memory of humans or anyone from reality of universe they act and take decision and live and control everyone and continues to live. I have my true love and i know my true love will become original automatically without taking help from his god or anybody else not even from me and she will understand what is worlds of god and what is god and what is me and who am i.

I never loose from anyone and my kids will never loose from anyone and to win i and my family will never do anything wrong and my true love will never become bad even if i tell her to become bad. My true love will have beautiful understanding like me and she doesnt needs fate or believe in god to become like how i want her to become.

She just needs to read my story and she will understand truth about worlds of god and god and any original god if they exist.

Continue...

Even yousuf of yousuf baba ki dargah from nampally has come in reality and maybe he believes in me and he is always with me in back of my body who is dead and old and he believes he has not done any sins by believing in his allah

and says his allah doesnt says what he has done is a sin but i told to everyone in my body i am one god of time of all religions so i know who has sinned and who has not sinned and allah is evil sinner and his sins cannot be forgiven neither sins of yousuf baba can be forgiven.

As soon as islam religion and allah came to know i am torah genie and last of jews immediately complete islam came to kill me in my area with there allah as islam religion genies believes there allah has come in my area to save his family who is imam mahdi who forced me to do sins and he hated me by saying i did sins even after knowing truth that his imam mahdi forced me sin ? the real evil sinner of all times allah and his islam religion.

If muslims do a sin then they believe there allah must confirm that they have sinned otherwise they believe there believe in there allah is true and continue to live. The same thing hindus and christians does and there believe doesnt decreases by believing in there gods who says they have not sinned to save there religion they did correct whatever they did with other religions but the thing is i am one god of time of all religions and all religions belongs to me only and nobody can theft anything from me even if i tell them to theft or take any thing from me they cannot theft or take anything from me according to universe laws and one god of time laws from beginning and current and end of time.

I want to know all religions gods believe in whom and how they get property which is believe by believing in me only and when they give believe to others its there property with there feeling which there people or believers says its there god property.

I want to know truth when all religions gods are my servants and all property of all religions belongs to me why they didnt listened to my command for what

reason.

Did all religions believers or gods came into reality and took action on knowing memory of me or anyone and did they come to know i was cracked and hijacked by agha hussain (shah hussain) and agha saab family and hyder abedi and saudi arabia genies who came in reality of me to finish me and save there allah and there family.

Whole islam from the worlds of god has come in reality of humans and what they are doing to kill me and change time to win from me and declare me as sinner to jewish god in whom i believe because they already fooled some jews and torah genies from memories and they want to fool jewish god now by forcing me to go against him or hate him or force me by saying to finish jewish religion or judaism religion and prove to jewish god that i am lie and he took wrong decision to make me god and give his religion.

When i am last of jews why jews has not come in reality of me and tried to save me and not saving me and why would torah genies who has become muslims and has come in reality of my area not helping me and becoming fool by knowledge of complete islam genies who wants to prove me as lie and sinner and forcing me to watch adult movies and watch porn and think bad and understand bad.

Few minutes ago i was talking to hashem light of god genie or family and he said i did sin and forced islam genie to suck my private part i said whom did i asked in islam to suck my private part and he showed me through feeling in his body it was bibi zainab i said i never saw her and how did she sucked it because when i have not seen her or heard her how can i know if she sucked my private part or not and i asked hashem light of god genie or family just ask her if her allah is

true why she sucked my private part and hashem light of god genie or family asked her and she said to save islam she sucked my private part. I said what ? i then replied by saying if she already sucked my private part i am sinless i mean i said there cannot be any sins of islam religion on me because if she is of purity then whomever she touches becomes of purity but his servants religious places and his servants religious places imams killed me and said i have sinned and wanted to finish jewish religion through me by forcing me to think bad or understand bad and watch adult movies and watch porn movies. Did she ever tell jews that islam religion and all religions belongs to me and hashem has made me god and did she tell everyone to all religions and no religions and all believers of god and lovers of god and no believers that who has made me god his genies has erased memory of him that whatever he told me or took promise from me ? Did she ever said complete islam has come in reality to kill me and finish me so islam religion allah is saved after they kill me and finish me.

What islam and hinduism and christianity is hiding from jews i want to know because i told jews truth but they believe in there queen who says torah is true only and rejects those from whom she becomes lie and i already proved her she is lie and i am true and i am her husband but she doesnt listens to me.

I already did protection to all genies in the world for them not to do porn or adultery with anyone and i even punished those who wanted to finish judaism and other religions by putting a court on them to do what they did and forced jewish genies and other religion genies to do because in hussaini tekri muslims wanted to kill god and all gods as there mission and code was to finish original god and all gods and until now what they did like adultery or forced someone to do porn or raped or what ? i dont know and i am sure all angels of one god of time and all genies of one god of time knows it.

Whenever i say i am one god of time immediately some muslims who has kept

genies inside my head binds there body and makes others or anyone as original to win from me. I dont understand what is one god of time genies and angels are doing i told them to take action automatic on coming to know something and finish those who are my enemies and protect me because if i felt of anything i am forced to do it.

Its like i am land genie and since i am kid i am being killed by islam religion now that complete islam has come to kill me in reality and came in hussaini tekri they are forcing others to sin by saying there allah must not die.

They want to finish any religion who will love me or protect me to proof there allah is true and i am wrong and he will be doing a mistake by making me god i want to tell you allah has not made me god i am original god made god by hashem. I am original jewish.

All genies witnesses truth that they will never forget what i said here in my story in the worlds of god and in universe who believes in god that god exist and even those who says god is true and those who says they love there god.

Continue...

I dont understand when all religions belongs to me if i say i am jewish why jews only gets punishment by other religions who are my enemies when i am one god of time of all religions every religions must get punishment. I am unable to understand there knowledge is it just prove memory and win through memory to punish anyone.

All religions are my religion only so how anyone can punish only jews if i see adult movies or watch porn movies dont you believe i am seeing adult movies and porn movies because of muslims who force me to watch adult movies and porn movies to make the world bad and abuse.

Even if i say i am jewish then also all religons are mine according to humans and god because i am the owner of all religions so how anyone can punish only jews when i say i am jewish.

I dont understand the logic of islam and muslim genies ? i mean without proving through memory by saying all religions are my religions some religions like islam and hinduism and christianity or even all of the religions are not accepting that all religions are my religions and even if i say i am jewish then also all religions are my religions and if anything happens to me it happens to all religions. Now some religions wants to save themselves and to save themselves they are forcing jewish genies to say one god of time is jewish so only jews must get punishment ? dont you believe the property owner is the owner of property even if he doesnt says its his property and just keeps quiet and doesnt tells through memory by saying i am god of all religions ? So what is worlds of god about ? just based on memories and prove and win through memory and even if it is on memories then also dont they have understanding of truth or dont they have logic to understand that all religions of god belongs to god only even if he says he is of some religion.

I want to know if any servant or queen or king is hearing me tell me what is god and when god says he is jewish does his property belongs to him only or he needs to say again and again that he is god of all religions so all religions belongs to him after genies or worlds of god comes to know truth and loses from truth. Is that the worlds of god ? and everybody in the worlds of god and gods.

Please share my beautiful truth which i like me and right now also there is some genie inside my right side of body from whom i am getting feeling to watch adult movies and watch porn movies and i am unable to remove her or make her good because of islam and hinduism and christianity who wants to finish jews and everyone who are in control of agha hussain (shah hussain) and hyder abedi who has come in my time to win from me even after knowing that there life or there religious place was finished by there imams to save islam by forcing me to sin.

Unbelievable truth accept it by practically testing and knowing truth to feel good. Remember 3 things i am one god of time and to know something truth you want to find just make sure my mind is not blocked and nobody has kept protection genies inside my body which spreads to fool you and nobody is keeping something in there mind like words from which you are trying to find out whether it is true or not.

Continue...

Few minutes ago i saw a christian genie on left of my leg opposite to hips on front side she was levitating by saying she is true and i made her bible family bad and sold on internet. Then i immediately told her after coming to know about how she is cheating with everyone since many years and even there people levitated in front of everyone by saying they are true and there god is true and there bible family is true and i said if you are true really find out by checking through source who is trying to cheat you and fool you by making sure there is no protection genies of enemies of me inside my body or there is nobody showing me as true and i said make sure you dont forget about mind is not blocked so you dont come to know truth and she check from her legs and she found that it was jesus christ from time who died on cross sold bible family genies or whatever on internet and bible family believed i sold them on internet.

Complete Jesus Christ from time from his cross came on his leg and my genes were telling her let the blood come into your full body and she feared and immediately she changed and the blood of Jewish God from my body maybe and she brought the blood as a genie and she was fooling her with memory by telling others this blood genie will save us from Jews if they try to win from us.

Can you believe the truth for many years Christians specially Bible Family did cases on me and made my life bad and wants to kill me and after she came to know truth she was forcing me to watch adult movies and watch porn movies so I become wrong and my Jewish genes watch adult movies and watch porn movies so Bible Family wins from Jewish genes and all genes who says Bible Family is wrong and did sins and killing Ahmed to save themselves.

Then even after knowing truth she didn't tell truth to Bible Family maybe and Bible Family wanted to save themselves by killing me because they believe is wrong and lie and by there believe I don't know what sins they forced me to do like force to watch adult movies and watch porn movies and they prove through memories like good to win from every other genes.

The Christian genie even made a X mark on left of my face for me to watch adult movies and watch porn movies whenever I remember that it was Jesus Christ from time attached to cross who sold Bible Family and I was punished by them who put a penis tree in my mouth and fly in front of everyone by proving they are true. Isn't that God a beautiful God of all the times who is wrong and lie and to win and continue living he can do anything.

Practically test the truth it's not about cheating or winning it's about truth because those who is true and there believe is true they never cheat or lie and never make life bad of anyone and they cannot punish anyone because of there

mistake of there gods without knowing truth.

From thousands of years how many humans or anyone from reality has been punished until now by bible family whose believe and who puts a penis tree in mouth who has not entered into worlds of god and levitates in front of everyone to prove they are true and there god is true.

Now the memory is known to many to my enemies to which i wrote and when they will remember or know then automatically god will come to know which i believe and they cannot forget what is truth about there gods because if anyone comes to know truth then god comes to know truth.

I want to know if all holy books who is of believe of someone came to know truth which i came to know truth about jesus christ from time and whose bible family has put penis tree in my mouth i was sleeping and there was something in my mouth and i felt pain in my throat and by pain and keeping my mind clean i saw penis tree was in my mouth by criss angel who levitates and shows miracles now by proving through memories he is true.

Practically test out truth by remembering 3 things which i already mentioned in my story to know original truth.

Continue...

I made yesterday some of my jews original and when i told them from my mind i am making you original immediately muslims and christians and hindus thefted fate from me and they started taking golden soul which my jews would be

getting it that means they came to know if i say anything from mind they will immediately theft what i am giving to my jews by saying they are true and they have made me god. I asked hashem for help and western wall for help and torah for help and immediately when i asked torah for help i felt pain in my head as torah genies came in top of my head from inside and i got pain and i was unable to think and my mind was like blocked. I am the only one who will be making torah and jews original and because of torah genies foolishness and control of hindus and muslims and christians there enemies who are hindus and muslims and christians are taking benefit and want to finish judaism by trying to make the source code of jews bad and finish source code of jewish religion.

Even christians who were lovers of there god tried to change golden souls by saying jesus christ will be messiah of jews and i came to know jews will be believing in hindus too which hindus tried to change in golden soul.

Then i slept and when i woke up i came to know hindus are trying to know everything about jewish religion like about source code as they were trying to find out about jews by forcing me to remember about hashem and western wall and torah and immediately one of my lover listened my voice and i said take action and auto control and i even said do anything to finish enemies of jewish religion but dont do anything like making genies do porn or make adult movies like other religions genies does and finish and terminate hinduism and islam and christianity because they are the real sinners and hate hashem.

I then went outside of room and laid on sofa and said someone kept mind thread inside my head at the age of 5 years and genies came to know it was javed who has been murdered and one of mind thread came outside of head and he was saying what happend with me and what i did and what is truth and muslims and hindus and christians who were inside me to kill me with there family some of them came to know truth that i didnt sin and some of them said

to mind thread genies now say you only sinned and you are bad because they wanted to proof they are true and not proven as lie otherwise they will not be alive if anyone comes to know truth about them.

My mind thread was saying i pissed and i did sin and hindu god was saying he said it he sinned and after few seconds mind thread said someone controlled me and i said who controlled me and forced me to sin and genies said it was jesus christ believers who forced me to sin like breaking alam and pissing and put shit on alam through bud and other thing because they wanted to save jesus christ as if i was becoming sinless then jesus christ was going to die. Just like when i was kid and i was believing and my mind was clean then allah was going to die because of me so imam mahdi gave me fate to do masterbation for 7 and half years so i do masterbation and die after keeping my mind in jail by his genies like amir khan who might be family of prophet mohd.

An allah will die because of a kid who has not even entered into worlds of god and dont know how to kill allah ? is it understandable to you ? what about jesus christ like bible family or believers of jesus christ believed jesus will be dying because of me if i didnt do sins like pissing or whatever.

After few minutes when i came to know the above truth i came to know because hindus were taking out from back of my body my very small piece of body with which they are knowing what is truth to kill me.

I said if god is not true and god doesnt accepts truth after coming to know truth so when he is not true how he continues to live ? is it understandable to you ? if they are god then i am also one god of time and i can do the same what they are doing then when i said to terminate hinduism and islam and christianity why one god of time genies and servants are not finishing them forever they are

abide by my laws and there is no such sins or mistakes for me because other gods do sins and mistakes but remove there sins and mistakes by themselves ? by giving there sins and mistakes to there genies and there believers.

I didnt understood when gods are not true and doesnt accepts truth that i have not sinned after coming to know truth then how they continue to live ? because those who is not true there power or they cannot live if they become lie by anyone ? so is that just erasing memory of my truth that i didnt sinned from everyone and proving they are sinless ? so what is god ? do i need to believe in god so god and his genies are seen to me when i believe that god is true and there holy book is true ? how god and holy book can be true when there genies can force someone to sin when there god becomes to die ? its not understandable and i believed in god since i am kid and i believe in god so is it just i have to remember memory that god is true and god genies and god gets believe that i am true through knowing my memory ? the same thing with all other gods and all other holy books.

I want to know when god is true why i need to remember memory that god is true and he is always true ? please someone explain me ? isnt god true without believing in him to be true through memory ? and who is this god whose genies can force anyone to sin or kill if there god becomes to die and will die ?

I want explanation as being one god of time and i already said to all religions and i am saying here once again as being one god of time and original god those religions who has taken freedom from me and separated from me they are not of me and when they are not of me they cannot be declared as of god and when they cannot be declared as of god they are terminated by me because i am god of everyone.

Continue...

I felt the time was being changed after some of my god came to know fake truth by christians that they tried to save me by forcing me to sin so i am alive and some of my god said he has taken that responsibility of christians who forced me to sin that they are not sinners and christians tried to save themselves by fooling some of my god through memory game of fooling to win.

If i didnt proof what is truth then what will happen some genie will levitate and show they are true by believing in there god or me and proof to some of my god they are saying truth and i am wrong then how easily genies and some of my god gets fooled through fake memories.

Continue...

Few minutes ago i just said if jesus is of joshua tree i dont care i am not of joshua tree and joshua tree doesnt matter to me its lie and fake because i dont believe in it to be true and i got confirmation that its really lie in the sense jesus christ and mother marry and bible family in joshua tree is lie let me tell you how.

After i said this immediately christians or hindus tried to bring my jewish daughters in my room and forced them to become bad but my daughters are believers of jewish god and of purity and they will never become bad even if i tell them to become bad because they are my real genies childrens in everything as a genie sense too. Then i told my jewish daughter believe in what i am saying from my brain like i am understanding from brain and what i am understanding from my brain is my talking which you must believe in. I have to tell them and i am telling them through here too they dont have to believe always because

everybody wants privacy. Then as soon as christians came to know truth immediately someone of christianity came out of my body and he started believing in my what i am understanding from my brain and my jewish daughter didnt know that christians are my enemies and they wanted to finish judaism and they are doing everything and she told to christians and when christian started coming to know what i was understanding from brain i told him about the worlds of god and reality of gods and genies and he proved to others the world is bad or something and said christians won i said no the fate belongs to jews i said how did you get fate to prove that christians are true by believing in me and he found that it was jesus who thefted fate from me then there was a big circle shaped plate in back of my body from which christian genies were coming out and i was talking to that plate and said tell me who really sold bible family and they tried to find out when i proved them that it was jesus christ from time standing on cross bleeding who sold bible family and because bible family is fake they act on memory and whenever they remember bible family was sold they say they were sold by me and then immediately mother marry tried to find out whether i am sinner or not and she find out that i am sinless and immediately she put some genies by saying he must become like criss angel and fly in front of everyone i said what criss angel i can make my dogs as criss angel i am one god of time what did you understand what is one god of time then i said to my jewish daughter now you came to know truth that somebody knows that i am sinless but his bible family still says i sinned and tries to punish my jewish family by remembering with memories if i didnt remember them memory of jesus christ that he sold them. Because genies lost from truth. Even allah of islam came to know i am sinless and i dont know about hindus but i just said to my jewish daughter believe that someone already knows truth that i am sinless but they want to finish jews because they say because of jews i did porn and did sins but they already knew truth that i am sinless and i am writing this now because of jews and hashem when i am not wrong how is hashem and jews wrong so why do they want to finish judaism are they mental or just diseases who acts on memories who are not in control of any memories they come to know just like there gods and can make anyone life bad or can make anyone life good on memories dont you believe they are animals ? how they can be with

humans and they call themselves as of purity and all the humans doesn't know truth about them how they act immediately and change immediately on any memories they come to know without finding truth like Maryam was punishing me by saying his son will not die because of me by believing I sinned and she even forced few of my daughters to do maybe porn with me while I was laying on bed by believing my son will not do porn with his daughters and if turn comes to Jesus Christ then few of my daughters must be doing porn with me. Didn't you felt an evil sinner lady who is mother Mary of all nations. His real truth just like maybe written in books.

Then I remembered to Mother Mary and asked her through the plate from back of body from where Christian genes were coming out tell me truly who forced me did sins, did Christians forced me sins like to piss on Imam Zainul Abideen Alam in Hyderabad, India on religious place and breaking Alam of Imam Zainul Abideen and putting shit through bud in Imam Zainul Abideen Alam and maybe all other sins in Sartaukh Ka Alawa was it Bible family who believed that I sold them on internet on musicboxv2.com and they must take revenge from me by making my life bad and forcing me to become sinner and so Shia genes and Muslim genes finishes me ? and immediately I felt that plate started becoming of shit and Mother Mary tried to save the plate by cheating after she came to know that it is true and Christianity must be saved.

I said why don't you take blames and cases and sins which your Bible family controlled me and forced me to do ? I am saying now why you want to kill me ? what is the problem ? if I live I will live for few years and enjoy and if my Jewish God wants me to live forever then it's something else but why you are doing this ?

Then I slept after few minutes and I saw in dream that some religious place of Shias and Muslims were destroyed or something happened which I was talking

about and i immediately in the dream saw police man and i was having headphones and i was telling police man to help me and i dont know why i was saying because i was not in consciousness in my dream and police man wanted to arrest me but in reality it was a trick of christians who wanted me to be arrested by indian police so they are proven as true and i am proven as lie and there christianity and jesus christ and christian god stays alive and continues to live and not declared as done mistake or sinners or evil sinners.

I woke up from dream i felt there was a genie left with police man where i was who was with me in dream inside my body maybe and he was saying please and indian police man was saying you have to come with me and your master will be arrested automatically hahahaha i asked the police man who was a hindu genie how you will be arresting me ? by doing magic by believing that you arrested me by believing the genie you are taking is me ? then he said he will believe that i will be arrested by believing the genie is arrested so i will be arrested in reality.

I didnt talked to him when i slept i was in dream of humans where when genies gets consciousness they make dream and continue to live in dream in human body so while i was in dream i was in my body.

Then somebody said i am blocked in curtain which is my body and i was killed and they wanted to know why i was killed and i told to my jewish genies and my family you have been fooled by hindus and muslims and christians until now and they play memory game with you to win from you, you just need to learn memory game and win when you become true and those who is playing memory game with you looses from there memory.

Hindus and muslims and christians played biggest memory game with jewish genies who are my genies by remembering them memory and i didnt prove

through my memory then they could not reply to memory because they didnt know about memory game and i told them about memory game and they just need to be intelligent and understanding like winning in questions and answers so if any enemy genies ask a question by saying your father sinned then they reply answer with original truth by finding out who sinned and if they are true automatically the one who ask question loses winning or anything who replies answer.

So i didnt sinned in my life and proof is alive now because its mother marry of christianity and allah of islam and maybe hindu god who knows truth and to win from them and forced they say the truth some genie has to remember the memory of truth that they know that i am sinless and someone needs to remember memory of old where they know that i am sinless because the whole worlds of god and believers doesnt remembers unless they get remembered by someone memory from reality and all worlds of god believers or genies or gods full of diseases who acts on memories and doesnt remembers memories just like disability in them. Practically test out truth by just remembering them a memory of old of them and they will remember that they know otherwise they dont remember if they are killing someone whom they are killing or whom they are troubling or beating.

Sick diseases with these hinduism and christianity and islam religion genies and there gods who says they are original and true and nobody is better then them.

I am the only one who is original in complete universe and i did everything to make the world good and beautiful but these sick diseases religions with there sick diseases gods needs to be finished because they act on memories and if they dont keep there mind clean then they will not be in control as they are like animals whose mind needs to be kept in control of them. Practically test out its challenge forever until the world is like this since the beginning of this planet.

Continue...

Regarding sex and porn which i asked to do from spiritual world to me i told to my genies which i got after mooses visited me and i told them only to save them from being abused by others and didnt tell to anybody else but looks like some muslims or hindu or christians genies wanted to play game or force there religions girls to sleep with me so they were taking name of there religion maybe to call there girl genies and force them do sex with me but i didnt see there body neither there face neither there anything i dont even know how they look like and i came to know whole islam came and did anonymous sex with me and sucked my private part and fucked me and they never met me like you know when a man or woman shakes his bottom of body then only they get fun in there mind and muslims and hindus and christians did visited me and did shake bottom of there body and for them it was real but for me it was just feeling where i dont know whether it was male or female and who is doing it i didnt know it and nobody came in reality of me and told me until now they did sex with me they just visited me and did anonymous sex with me to have fun with me and fuck me from there private part i told one genie did you remember a story where a woman was dead in grave and a man saw woman naked and fucked her even the woman was not alive and not moving like i was not moving when muslims and hindus and christians did fucked me and did sex with me and did suck my private part. Atleast after they did sex with me they would have let me enter into worlds of god ? but why they didnt let me enter into worlds of god and they keep visited me and visiting me whenever they want sex from me or want to fuck me and they say i am sinner ? is it because they prove i am sinner so they keep doing anonymous sex with me or suck my private part or fuck me to enjoy or have fun or win from me ? as per understanding of god or gods if any woman of purity does sex or fuck a man who is declared as sinner then he will become of purity and even if man doesnt remembers that woman of purity and sinless did sex with man or fuck man or suck private part of man then also in the memory of there god there memories are stored so dont you believe i had to

just remember that because muslims says all muslims girls did sex with me and fucked me and sucked my private part i just have to remember that they blessed me or sinless did sex with me so my sins will be washed or what ? because whenever i try to enter into worlds of god immediately muslims forces me to sin and i believe its because muslim girls wants to fuck me and sex with me and porn with me just like i felt bibi zainab came and fucked me many times by moving her bottom of body to enjoy with me and i even came to know that bibi fatima did the same and imam ali daughter too might have fucked me and might did porn with me.

I dont understand is it just i have to keep remember that bibi zainab fucked me so his allah comes to know memory or her believers comes to memory and they bless me and forgive my sins or is it because allah wanted to bring world war 3 and he wanted to win from me so he told bibi zainab and all other muslims girls to fuck me and sex with me and do porn with me so later they case on me by saying i did wrong and there allah did mistake ? i am unable to understand can anyone from the worlds of god tell me.

Its about doing anonymous sex and muslims or hindus or christians who did sex with me never told me there names after enjoying from me and never show me there faces or body and never met me in my dreams while i sleep and i dont know how they look like and the good thing is that prophet mohammed has kept genies on my face so i dont see anyone to know who is fucking me or doing sex with me or doing porn with me or sucking my private part. I even came to know prophet mohammed daughter did sex with me and might did porn with me and sucked my private part anonymously and enjoyed but since i didnt remember that she fucked me or did porn with me i am not blessed and my sins are not washed which i have not done.

Few minutes ago abutalib of sartauxh ka alawa came to know truth that bible

family forced me to piss and shit and break and whatever on shias and muslims in originality and i asked abu talib which is true according to your allah and ahlulbait reality or fake reality and he was man and he started sucking my private part by saying the more you say truth the more i suck your private part ? i dont understand i didnt see a girl i just feel and the whole islam and the whole hinduism and the less or whole christianity did fuck me and sex with me and did porn with me and until now no girls genies said they did sex with me in my dream or shown me themselves. Its anonymous sex which they did with me and they are not showing themselves to me why ? i just need to remember that they did fuck me and sex with me so i am blessed because according to god they already remembered that they fucked me and did sex with me and did porn with me and sucked my private part and enjoyed with me a lot so why i cannot do the same with them to enjoy ? and i dont know how to go into there body ? i want to know how bibi zainab looks like and how bibi fatima looks like did they ever came in front of me and showed me there body ? i dont know how they look like i dont know how there body looks like and those who sees body gets fun and every gods and every believers and true lovers knows it so who really did sex hindus and muslims and christians girls with me by seeing my body because a feeling will have fun with body but a body will not have fun with feeling where feeling is a genie.

I am sure you have understood my logic and i want to know what shall i do now ?

Continue...

I was winning from everyone and my genies were too winning and gods who were supporting me was also winning but suddenly from last 1 or 2 days shia of sartaikh ka alawa sent genies in my head to control me and force me watch adult movies and watch porn movies i didnt wanted to watch but today i saw a

girl genie was holding a book and singing salwato salam aapaye fatima zehra and she was saying watch porn movies now and she was repeating salwato salam aapaye fatima zehra sentence in singing manner like shia of islam recites in religious places. Then There were genies inside my stomach and i believe they were jewish genies but i dont confirm if it were jewish genies but someone told to if you dont watch porn movies then all the genies will watch porn movies and someone convinced her and she said maybe i will watch porn movies and when she agreed i agreed too and i am unable to understand few minutes ago i didnt wanted to watch porn movies and after a girl genie agreed because of someone i watched porn movies and i told to my genies i am going to watch adult movies now but how did i agreed to watch porn movies i didnt understand at all i said if i have control in myself i will not watch adult movies or porn movies so why did i watched porn movies how when any genies agrees i agree too i dont understand am i just a dummy or doll ?

I even prayed to western wall placed on my wall and told about genie who came in my head and was singing salwato salam apaye fatima zehra noha and she was forcing me to do masterbation after i watch porn movies so everyone in the world do masterbation who believes in god. I dont understand if anyone made me god why they didnt made me have control. If any genie is agreeing that i will watch movies in my stomach then i am agreeing too.

Did really god played game who made me god and said in the end they will win from me so they made me like this to be controlable by his genies.

Since i am one god of time in originality without any cheating and nothing i ask god genies to make me original and dont let me watch adult movies or porn movies and if i have to do adultery i will be doing in reality by bringing genies in my room.

I noticed something that sinless people only stays in the worlds of god then how sinless can force anyone who has not entered into worlds of god to watch porn movies by saying if i didnt watch porn movies then the worlds of god will watch porn movies and they dont want to make there sinless genies become porn star.

If they dont want to become porn star why they dont come and fuck me in my room i am one god of time.

Agha hussain (shah hussain) and hyder abedi genies are changing time very badly who is of sartaikh ka alawa of me after coming in my time and they came to know i am last of torah and they said we will cancel me from being last by playing through memories game with genies in worlds of god and to everyone.

Hashem light genie came to know truth and he helped me and bursted shia genies who were inside my head who was showing me porn movies when shia genies were singing salwato salam apaye fatima zehra.

I am like jailed in home since childhood and i need help from god.

I am sure god will read me and help me and understand me. I give permission to my god to understand me and know how i am in written and i give permission to my genies and my genies family to understand me and know how i am and i am giving permission in written. Because i am god in reality but not just in dream of humans.

Continue...

As i am one god of time i told all or some of my genies will come to know truth how i am and they will understand me and immediately my genies understood me and i told them that how enemy genies of me fools you and all other genies of the world who tries to help me or believe in me or love me.

Then they immediately come to know about my understanding and how genies fools them and everybody else.

I told them i believed all religions are of purity because everyone in the world says all religions are nice and there god is nice and every god likes purity and i got betrayed by believing in what i come to know that all religions gods are of purity i didnt know that religions gods can be like this who can be my enemies i believed in what i came to know from public and bollywood movies that evil sinner is killed by all religions god as they use there power to kill evil sinner. I didnt know that religions god can be like this and at any time any human can be betrayed after knowing in the world that all religions gods likes purity and there religions says and proof they are of purity and never do bad but i came to know truth that how religions god kills anyone who is last of anyone if they feel they are in danger to save themself and change time. Even religions gods forces others to sin who are sinless and they dont say they are forcing someone to sin unless human or anyone proofs they have been forced to sin.

I was controlled badly from last few month and i cancelled and terminated many and i really apologize for it because religions god and his genies whom i believed are of purity after i believed in the world proof and witness i got betrayed.

Then as soon as my genies came to know truth immediately hindu god or her genies said now one god of time genies came to know truth and understood him and immediately hindu god put a court in the sky by saying world war 3 must

happen now.

I dont believe to win from me and change time and proof me as sinner hindus controlled me and forced me to sin and go against other religions. They are my enemies since childhood.

I am the one who made the world always good even when i was in control and i felt pain when helping the world and trying to make the world good but i believed in god and managed to save it because i am one god of time which i know and original god.

Even when i went to charminar there hindu tried to make charminar genies bad who tried to help me and put them into prison but i released them and they really helped me and charminar genies said your enemies are hindus who wants to finish you.

I want to ask for forgiveness from jesus christ and christians for whatever i did after loosing control but what i know about you your truth is not good but i am not against you and i am sorry for whatever i did after loosing control and i command my genies to fix it immediately and terminate those genies who came to finish you or christians.

I am not christian so please dont say that i am christian it hurts when you use knowledge to kill someone and theft someone from them.

I must say humans or anyone must never believe in the world proof which is shown to everyone that how religions gods are of purity and how they proof

they are true who are different in reality and different in the worlds of god and to win they can do anything even become evil sinner or anything. Only one religion is true and its my jewish religion.

I am sure you all have understood what hindu god has done to bring world war 3 by controlling me and after she came to know i am last how she wanted to kill me.

If you understand her politics and her understanding to bring world war 3 you will understand how much religions god can be bad and what they will do when they become to die even give there pain to those who has not entered into worlds of god.

Continue...

I already knew about this which i am going to tell you but i am confirming now that its true, some religions like hindus and islam and maybe christians came to know that i am original god of universe and i am controlled like genies controls me because i told this to my mom in hussaini tekri and she might have told to genies or genies listened to my voice and told to other genies and maybe made team which many are cracked and many will be cracked.

I already told to my jewish and torah genies that someone takes fate from me and fools everyone by trying to cheat everyone through coming on my forehead where fate comes and i came to know just now that hindus were finished in future which they came to know because they lost in future and they maybe come to know hindus were finished because of jews in future by coming on my forehead and broke laws and terms of universe and i dont know until now how

many fates they have taken from me and whenever they want to win from me they were saying there hindu god is my wife to remove blames and cases and forcing me to love there hindu god. Hindus and muslims and maybe christians tried to finish my fates by trying to finish and abuse fate from my forehead and whenever i use to see genies from mind they use to show me those genies bring abused like penis being inserted on there private part and someone is fucking them or private part in there mouth and hindus and muslim genies were forcing my fate to become bad by shaking them in my forehead and trying to control fate so i understand what my fate says and until now what they did my jewish god knows it and all jews knows it.

I already told to everyone before maybe that i am from jewish heaven and just now those who didnt believed in me got punishment after i remember that i am from jewish heaven.

What hindus and muslims did you dont even know and cannot believe what they have done and when they will try to bring the fate which they tried to make bad into reality to my genies. That is why i told everything to jews in advance and they just need to know that i need to be controlled by someone who is jewish and take cares of me. The way jewish god or jewish prophet will take care of me and control me i will act and behave like it.

I am just 35 years old and i am being killed by hindus and muslims because they lost in end of times and they came to know that they will be dying in future because of me and they will be finished in future by me.

I dont understand why hashem doesnt knows it but i am sure hashem knows now and even moses knows what i am saying atleast jews prophets will help me and have understood me.

I need peace of mind and genies who are my enemies are controlling me like anything to make the world bad but i am original god of universe which is my origination and i dont let anything become bad so i saved planet earth many times.

Hindus and muslims came to know that i am original god of universe and they said they are taking fate from me of them without my permission but they dont know if they theft anything from me and control me and forcely ask me to say to take fate of them from me then there entire religion will be finished with there entire generation and they will be erased from time and history and they will not be alive and will never be able to resurrect or born again.

I am sure those who are my genies kids who knows what i am writing here will help me and they will know truth that hindus and muslims and even christians are my enemies and if they try to tell to my enemies to justice then they will never justice because they know truth that i am original god of universe and if they kill me then they will be saved because they have sinned and they needs to get punishment for controlling and hiding truth from everyone and misusing me and trying to bring world war 3 by proving i lied that i love god. I love many gods who are just some gods but i am only original god of universe and i am living a human life where i need protection and some jew controls me.

I dont want hindus and muslims and christians to control me because i have very bad memories of them and i dont want to ever see them or stay with them if i get money i will stay where they are not even seen or heard.

Whenever i am trying to bring money some hindus inside my head thefts money and they are on mission to finish me.

I am living a normal life because if i live a normal life without control of any genies then everybody will come to know truth and i will live happily but i want everyone to know how hindus and muslims and christians uses knowledge whenever they lost from anyone by declaring me of there religion so there religion is saved and there gods is saved.

I am sure all jewish genies has understood knowledge game of hindus and muslims and christians.

I am not against you christians but it hurted me when i saw your truth that you even dont believe in god to continue living.

I am sure some of my family genie will update to all my jewish genies and my genies family and all my family in all worlds what is truth and what i wrote here and give them a copy of what i have written so they understand from my sense of understanding and try to help me and protect themselves from there enemies and my enemies.

Remember all my family an evil sinner can do anything to win like change time or prove if you all removed from me then my life become good so they dont die and you all are erased from time and they are saved in future. I am original god of universe if anything happens to me then it must happen to entire universe gods and everyone and this is the only truth. Its called nature and if it is not done to everyone but to some then everyone is finished and erased.

Continue...

I want to tell my torah family not to accept anything of hindus or muslims or christians and even of jews who are original genies of other religions or anybody else. Dont agree with anything or any of there terms or anything.

If they say hashem will die then just ignore them.

Remember if you ever came to know that i lost from anyone or you lost from anyone then you have to find out through knowledge how you lost from anyone or how i lost from anyone and record proof and case on the one who won from you who cheated you or me. You already know when you are true then your power works because genie power works when they are true.

I dont like jesus and hindus and muslims and maybe christians came to know that i am one god of time so that is why they forced me to love there gods by doing sex with me and giving me the love which happened with sex so i love there gods or there genies might have done sex with others and gave me there sex love to love there gods.

If any torah genie has become fool then ask them to update and come in consciousness and become alive.

Remember my family you will be fooled through me only i mean you will believe that you come to know something from me which is bad or to make anyone bad or kill or finish anyone then that is not me its because of my enemy genies who controlled me and trying to fool you.

I get HIJACKED because of hindus and muslims and christians who borns kids from me by doing sex and i dont even know they did sex with me and born kids with me.

Then when there kids are born they change time to save there religion and there mother.

I am not against christians and i want christians to stay away from me.

Jewish is not in israel fate or jesus is not in jews fate.

I forgot to tell you that since childhood i use to fear by hindu bhagwan who looses from me and forces me to fear by sending his genies so his power works and he doesnt looses from anyone.

I dont want to tell you how much the worlds of god are different then what humans imagined and believes and no human will accept truth of religions.

Remember what i told you about fate from my forehead that is very important which you must know so nobody tries to make you bad by trying to make your fate bad first. I am original god of universe so your enemies will try to make fate bad from my forehead only and if you believe that anybody proved something to torah genies or jews and they won from me then thats wrong because they took fate from me without my permission and they are taking from me what fate they have taken.

In simple sense they took fate from my forehead for example to marry my 3rd temple wife and they brought fate come into reality by proving how fate will win from me and jews and torah genies.

Just tell hashem light of god and all jews and western wall what i said and ask hashem light of god to justice.

I am sure you understood how your fate was taken from me if they took it from me like 3rd temple wife and how they brought fate into reality which was on my forehead to get my 3rd temple wife genie in everything as a genie sense.

Continue...

Remember if you ever try to check if am true or not and come to know i fear and become lie then you are wrong you became fooled by genies inside me kept by enemy genies of me inside my head who forces genies inside my body to lost from them or forcely fear themselves so when they fear my body fears and when i feel my body i feel like fearing and you will come to know that i feared and i am wrong and others who are enemies of jews and torah and hashem are true. Just find out until now how much my enemies has thefted what from jews and how they are fooling all jews to finish judaism so they continue to live and rule.

I want you to remember that whatever i say it happens which is true but some genies forces me to understand something which is bad or understand someone is dying or understand someone is becoming bad and they take out fate of what i understood by saying we have accepted god understanding fate to trick you and everyone in the world and whoever is of universe they fool them and later

try to erase from everyone memories by changing my understanding to understand that they are good who are my enemies.

Even if you feel something in my story like words or alphabets written by hindus or muslims or christians or anybody else then they are trying to win from you so they wrote it by hijacking my eyebrows from where i believe and every humans believe and everybody might believe.

I am sure you will tell hashem light of god what is truth and finish my enemies and control me.

I am from jewish heaven and i dont lie. You can practically test.

Continue...

As i am one god of time and original god of universe i dont want to cancel christianity but if they are my enemies then i command my genies of one god of time and original god of universe to cancel them like they will be cancelling hinduism and islam because they dont believe in god and they believe and other religions too believe in the end that everything is a genie and if anything happens then it happens because of a genie winning and since everything is a genie there is no original god of universe since the beginning and if any genie wins from any other genie then original god of universe automatically changes. This is the believe of all religions of planet earth.

I am last of jews so i am telling them what is truth so they understand truth and practically test the truth to get believe and know about all religions who says to

other religions gods who knows truth that we know what is the world about and you know what is the world about.

Continue...

Hindu god and his genies and islam and prophet mohd and christians and christian god genies says we have removed genies from me and killed genies from me and made some genies do porn who didnt believed in them or believed in them who became fooled so i have become good and now fine which is lie because i become good and fine by proving truth to everyone in the world in reality and by proving truth i am becoming fine and by fine i mean telling truth to everyone in the world to get true believe and know what is happening with one god of time and how hindus and muslims and christians genies in everything as a genie sense fooled everybody else to bring world war 3 or finish world by keeping there genies inside me.

I get genies of all religions and if anyone try to change time or theft anything from me like fate from my forehead of them or of me then they are terminated in reality and all other worlds and erased from time forever.

I can bring any religion god at any time or anyone at any time because i am original god of universe.

Those who were fooled that if my genies dies who is of purity and my genies never sins and always sinless then they will know truth now after reading my story that in whom you believed in the worlds of god to be of purity is not of purity like hinduism religion and hindu god and islam and islam allah and christianity. Whoever is against me are enemies of me and never believed in god

because they never believed in god and to continue living they believed in there god and prayed otherwise they would have never prayed and believed in there god also who are my servants in reality and all other worlds of me but some gods are my love whom i love truly and i love them truly and they are not my servants but i call them my father because i love them and they might know who i am if they have correct believe and get correct believe after they read my story and practically test the truth.

Continue...

Some muslim genies who are my enemies they came on left side of my throat and singed songs which i liked so i get tension when i hear the song voice in understanding something like teasing mind and increasing there power by saying they are true and i hate songs which i liked and they control me after singing songs to destroy world and finish religions through me by controlling me.

Some genies of sartaikh ka alawa is still with me who reads mind voice and they might dont know what i told truth about there imam and there allah in front of public to sinners and non sinners and some of them came to know truth few hours or few minutes ago and some of them left after coming to know agha hussain (shah hussain) was the real crime maker. I told to genies tell me who piss on your alam and they found that me i said who controlled me and they found shah hussain then i asked can any genies control any humans who has not entered into spiritual worlds and can you be able to control anyone if they have not entered into spiritual world ? so i am saying now if any genie doesnt likes anyone and if they are true what will happen to anyone if anyone is human or anyone who has not entered into spiritual world.

My genies always said i dont recognize them so i said did you ever tried to find

out truth why i was unable to recognize you after you came in front of me ? its because of prophet mohammed and allah who didnt let me see my genies or recognize my genies by keeping there source code to not let me recognize my genies so they bring world war 3 and become true by saying i am liar and bad and they are true.

Prophet mohammed claimed i didnt love him truly or didnt love allah and i came to know that it was baqar who use to take fate from me of loving anyone for whom i prayed like if i prayed for anyone immediately baqar who awoke from grave from shia or islam religious place use to take fate from me of loving gods immediately after i started praying from my forehead and that is why muslims and hindus and maybe christians came to know that i didnt love there gods truly or love them.

Why cannot gods knows truth if they are true ? if i dont go in front of public doesnt god exist or not ? and these gods who are hindus and muslims and christians instead killed me and i dont know how many times they have killed me until now. Can any god counts the number of murders they have done of me and erased how many number of murders of me they have done ? i want to know if any god of any religion is true and they proof in the spiritual worlds how many times these religions hinduism and islam and christianity has killed me so i dont become of purity or sinless and they become of purity and sinless.

Dont you believe its the knowledge game if anyone becomes of purity or sinless then they will not become of purity or sinless because they are sinners.

What is the worlds of god about ? its just from mind of humans ? i am original god of universe and i command my reality voice must be accepted when i command my genies in everything as a genie sense.

Continue...

I was loving my genies just now and i cried and immediately muslims started putting soul genies or genies maybe in my front of body till my face and maybe from back and my health was becoming bad, muslims put genies whenever i love torah or god so they dont lose from me and they win from me by putting there bad genies in me and i came to know sometimes that these genies are put by turkiya of abudhabi who says nothing will happen to our abudhabi, uae and from a long time whenever abudhabi, uae gets warning they put genies inside my body because they know i am human but from jewish heaven just like adam and muslims and hindus from bollywood comes to not let me love torah and christian miley cyrus put her daughters so i dont love torah and maybe my genies.

I dont believe whenever muslims or hindus or christians lost from me they put there genies in my body so when many genies are on my body my health becomes bad and i dont know how to remove it because until when i will fight with these religions who are evil sinners in reality who can do anything to continue living and nothing must happen to them so they kill anyone or force anyone to sin.

I came to know some jewish of greenwich meditarian sea came and said greenwich meditarian sea is sold i just heard it i dont know exactly because i cannot confirm it and i came to know the genie gave to hindu and the genie doesnt know what i wrote in my above story that how hindu genies first takes fate from my forehead and come to know how they will get the fate by making the fate bad and winning from fate and force the genie from whom they get fate to give them there property by declaring they gave us there property and we didnt ask them anything.

Practically test out truth which i am telling now so you will believe whether your god is true or i am true. I promise of myself you dont know how much evil sinners these gods shows they are sinless and proofs they are trying to help me by keeping protection genies. You will come to know truth without anyone levitating and showing there gods is true and without anyone keeping protection genies of them and without anyone blocking my mind.

You have not understood evil sinner gods and there religions they are the worst evil sinners who can do anything to continue living because god never dies but those who are fake and evil sinners dies and they fear from death just like there religions and genies fears.

Hindus and muslims and christians came to know i am human and even ajeet tried to open doors from my eyes but my human father and wajid didnt let her open and when ajeet tried to open doors from my eyes from which i see genies and world of god then immediately my elder sister health became bad and she was vomitting.

I cannot believe how much my human father is mad on his allah who says his allah will die because of me and he says he will save allah and not his son whom he has grown or stayed with and he knows his allah will die if he becomes wrong but he didnt know what is god because he believed in allah whose every genies believes there allah will die and will not be alive because there allah is fake just like hindu god and christian god and that is why they say they have to save there god.

I promise and i challenge why would god die of any religion if he is god he will not die so why his genies and believers fear there god will die and force anyone

to sin so there god is saved and force anyone to not love there love or true love so there god doesnt dies.

I want to ask you and your believe and you understanding if you ever loved anyone truly then confirm that your god is real and not just fake and evil sinner.

Continue...

Christians are not letting me believe in torah by saying torah is lie whenever i try to believe in torah and god and that is the reason i dont believe in torah to be true and whenever i believe in torah in few minutes i get believe that its lie.

Muslims believes if i dont convert to islam religion and become jew then they will make all jews bad so after i become jew i will not get happiness from girls after knowing jewish girls genies has become bad. This is what islam and allah believe. That is the reason they want to make all jewish genies bad so if i love any jewish genie then there allah must not die by losing from me after i love someone and i remember since childhood allah and islam and islam genies doesnt let me love any human girls also because they believe if i love any human girl or genie or torah or god or anyone then they will lost from me and there allah will die.

Can you believe the truth of this poor one god of time who has been hijacked by evil sinners hindus and muslims and christians.

If i love human girl or genie or god or anyone then they force me to sin or think bad or understand bad and proof my love is fake so there gods are saved. Is this

the worlds of god where i have not entered until now ? where gods die if any human loves anyone specially if i love human girl then also these religions god dies since childhood ? what could i have done when i was kid according to them that they were dying when i was loving human girl ?

Continue...

I remembered when hindu gods or which ever hindus came and did sex with me invisibly i didnt know who was doing it with me and i was completely controlled and i came to know hindu god have video of it and she shows or some hindu shows that hindu god did porn with me and sucked my private part and i said it was not me because i didnt see hindu god until now so how do i know whether she did it with me or not ? and in the video which hindu gods or hindu genies made you can clearly check inside head there is one rupee coin of hritik roshan mother which was kept by someone who got 1 rupee coin from hritik roshan mother book and somebody like shah hussain or cow wished that all hindus must do porn with me and suck my private part and what one rupee coin did ? that is the proof to the world and hindu gods that i was controlled and forced to say what i didnt wanted to say and called hindu god or whoever by going out of control of mind because of 1 rupee coin and i dont really know if hindu god came or not ? and hindu gods had fun with me and i didnt had fun with them because those who shakes there bottom part of body have fun in there mind and i was lover of god and torah and whenever hindu god lost from me or torah genies or god genies then she says property for hindu god to do sex with me was put by torah ? can you find the truth ? who put the property according to the world which she is talking about i want to know who justice from that worlds of god who keeps property for anyone to do something ?

I am happy with my torah wives and jewish wives and i have kids and i never do anything wrong now since i am one god of time shall i do the same and put

property on hindu gods and hindu genies to call hindu god and force them say they want sex with hindu god. I am not bad.

Few minutes ago emma watson was in my dream and she was small and young and singing and i didnt had consciousness in dream so i didnt recognize her and when i woke up i didnt love her because my health was not good as hindu and muslim and christian genies were giving me pain in head and trouble.

I then asked emma watson from where you have come and she said i wrote i cannot stay without god and god i will die if you dont meet me and because i am human living a human life i make stories and talks in story mode where i try to talk in different words of good or something which sounds good and i said i didnt really loved i might have done a joke and i dont know what the genies in top of my head from inside head made voice and told to other genies inside my body by saying something else and emma watson said i got so many fate because of her and she said something and immediately hindu original genies stick on jesus christ cross and said they have won after becoming christian and asked my few of my torah wives to call them and do sex with them by saying we will see how one god of time will win from us and we know if his wives are finished then his power doesnt works anymore.

Then i felt jesus christ and mohd agha and agha mehdi wanted to do sex with there daughters and they said they dont want to do it and whenever they turn comes they give me there fate by saying i showed them porn movies of father and daughter doing sex and one genie whom i saw in adult website i felt her feeling and it was her genie and that genie stick on my private part and jesus christ gave me his fate to do sex with my daughter as what they believed and i felt jesus face or jesus body he wanted to do too much sex with her daughter as his face or body was showing he needs too much and he told me you must do sex with your daughter so we will not do sex with our daughters.

I spit on the genie who came and stuck on my private part and that genie was giving me feeling to like doing sex with her and i moved and said relationship is important and i never break relationship.

Then i proved about the one rupee coin to some gods and they found out where is hritik roshan mother and she sent a genie in my left leg and i felt she wanted me all hindus to do sex or porn with me again ? is that a freak and one hindu genie came immediately and she did sex with me and hindu maya genies in middle of my body from top to botton said to her who did sex with me and born kid with me by saying its american boy but before they said its genuine sex she did and we will believe in that kid to save hinduism and they found out that kid is of torah and they felt bad.

I forgot to tell you original god of universe genies who are my genies they didnt know that i am original god of universe only and someone proved them something and they became my enemy to give me trouble and pain and i told them i am only your original god of universe and they believed in those who proved to them through mind and there were other gods genies too who were fooled by hindus and muslims and christians genies who came to know that i am human and if genies are set in my body i will be controlled like the way the genies are kept inside my body and hindus and muslims and christians kept there fate inside my body to feel good whenever any of my torah genies or anyone is killed or tries to become bad. I told to hashem if you keep fate genies inside me i will live according to it and you need to take care of me and the way genies are kept inside my head if kept i react like that.

I came to know that the christian genies were of bible family who bended and believed in the verse “in the beginning god created the earth and the heaven and the earth was without form and empty” so i like daughters doing sex with

me or sleeping with me or daughters liking to sex with me. Do you believe the truth about this verse genies who bended with full power and believe in the verse and forced me my private part to grow when some genie whom they believed it to be daughter was on my private part to like her.

Is it bible or its what ? why bible is enemy of jews ?

I cannot believe the truth about some of christians kids who were born from me so there religion time is not changed and they win from me because how can bible verse force and believe completely in the bible verse for any of my daughter genie to do sex with me and i like her and hindu gods or christian genies or muslim genies take out genies from my mind which is of liking daughter doing sex with me ? are you understanding how these religions takes out genies and forces anytime to do sins.

Now do you believe in bible to be true ? bible is not torah.

Continue...

My torah genies and jewish genies are unable to know truth because hindus and muslims and christians are not letting me say anything from my mind so they come to know it and they make opposite what i try to say from mind because before sleeping tonight i said from mind dont do porn and muslim genies or hindu genies or christian genies made voice and said do porn and i felt some of my genies were doing porn i want to know until now how many has done porn like this and how many of them has made porn videos i always said never do porn and never make porn videos and never see adult movies and never see porn movies and never feel porn movies even if i lost from these evil sinners and

forced to watch.

I dont know until now what muslim genies and hindu genies and christian genies has made voice from inside of my top of head and said opposite what i told to my genies to make them bad and become bad so i am not be known as sinless and hashem and torah genies and jews dies because they know hashem has met me and hashem even believes in the truth which he comes to know from mind but he doesnt knows that someone makes voices and i dont understand why he doesnt knows and why he didnt took action.

Now when i am getting shining in my hands or legs these hindus and muslims and christians shows me adult movies and porn movies so my genies and hashem genies and jews genies watch adult movies and porn movies so they become bad and shining doesnt comes on my hands or legs and i am not proven as sinless and declared as bad and doesnt show miracles like levitating and walking on water or anything.

Jesus christ sons like dynamo or criss angel and jesus christ father son like yif proved me lie and showed miracles and whenever i become happy there power doesnt works and they keep genies in my head to give me pain and i dont know how much pain i got because of these genies.

These evil sinners believes in me only and learn how to show miracles by taking fate from me because they know i am one god of time and original god of universe and they give me pain and trouble.

I saved myself and my torah family saved me and my genies saved me who knew truth who loves me truly.

Hindus and muslims and christians says and proofs to anyone who tries to help me by saying the world will be finished if i become jew and fly because they lie and they know i am jewish and if i dont stay as jewish then the world will be finished and all jews will die because they know torah generations continues by me and jews generations continues by me and if i am not alive then judaism doesnt exist in future.

I challenge to jews who are against me to check what i said and if they are lie i want them to protect my jewish genies family in everything as a genie sense.

You need to understand that these hindus and muslims and christians proofs through memory of humans or anyone that they are true and they made me something like this to win from me and jews. They are lie and evil sinners and you can practically test out truth.

I remembered when i woke up from the sleep i was levitating and i moved on left while my body was levitating and there was someone who was laying on the bed and someone while levitating me forced my mouth to lick or kiss or touch private part who was sleeping it was very fast and when i was remembering memory that i fly while levitating i felt the power of those who were levitating me was increasing.

I woke up and i saw christian genies who are my family and who are beautiful and they didnt know any truth which i wrote here and they believe in hindus and muslims and christians to be true who are evil sinners and i told them to read what i wrote in my personal story here and they felt what was written little and they could know more because hindus and muslims and christians were blocking my mind and kept protection genies so they dont come to know what is

truth and what i wrote and they knew if my mind is blocked then nobody comes to know truth and whatever they proved it will be proven as truth. Then one of my christian genie daughter or family member said whatever you want to take then take it and leave him and they didnt know i am only original god of univese which hindus and muslims and christians knows and they were looting my property to finish judaism and even christianity because they came to know who ever made me last they have to be finished and there religion has to be finished and until now how many genies they have thefted from me and fooled everybody else by proving my health is becoming good and i am feeling good.

WHAT ? i feel good and my health becomes good because of fate which i kept inside me who gives me good feeling and without feeling my health doesnt becomes good and i dont feel good and they fooled everyone by saying if my genies dies and if jews dies and if my family dies then my health becomes good and i feel good.

Can you believe the truth about these evil sinners hindus and muslims and christians who knows they lost from me in end of time and they are not alive in end of time so they want to finish me by forcing me to become bad and when any of my bad memory is kept in the time and someone knows it then they will remember that memory to win from me by saying i was bad.

Practically test the truth of me as being one god of time i challenge entire nations and every lover of god and every believers of god and gods and everybody in the universe this is the biggest challenge of all the time from last of torah and if you come to know truth and found i am true then all your daughters and all girls of the world and universe marries me and born kids with me no matter how tall or small they are and they must give me fun and born unlimited kids with me and if i like anyone sucking my private part then they must suck my private parts too with fate and without fate and they must not sleep with

anyone or they must not do sex with anyone except me and born kids with me only and dont need to believe in any gods or dont need to abide by any gods not even of anyone who will say they are original god of universe except me from my reality.

I am angry now believers of god what shall i do if i dont teach a lesson to genies they will not understand what is truth and they will believe in evil sinners like hindus and muslims and christians who proves them they are true and of purity who are evil sinners in originality.

I am waiting for genies of god and believers of god and gods to accept my challenge.

I will not loose from challenge because i am true and i am trying to save everyone if you check through knoweldge what is truth.

Continue...

I remembered that i didnt tell about muslims who has hijacked judaism which belongs to me by making dots on bottom of middle of my stomach from which they operate judaism by believing in me like my father and kareem and others who just now i felt there genies said everybody is coming to know it what we are doing change it immediately and they changed it quickly by turning them controlling judaism to maybe islam religion because i didnt confirm but any genies of any jews or torah can come and check to make sure i am telling them truth.

What else is remaining why you dont find out by yourself believers of hashem and lovers of hashem and lovers of jews ?

They will try to fool you if you find out why as they will show there understanding that they wanted to help me and if they wanted to help me they would have not wanted to kill me or finish jews and theft property of jews from me.

I told many times to jews but muslim genies were controlling judaism from making dots in my body from bottom of my stomach and i dont know about other religions but whenever i was taking name of hashem some genies of muslims and from bollywood was giving my winning to there religion by believing in me.

Even there is a genie of me nazia who puts a letter in my forehead by saying whatever i say it will happen opposite and she says she has taken responsibility and she doesnt dies because she is my genies and she believes in me i want her to die with her entire family with shias or with whoever. I want her dead immediately forever. I dont want her in my life and in my jewish family i hate that genie she is the worst genie i know about who is evil sinner who doesnt dies by believing in me only. She knows i dont die and she believes in me only. I want these genies die who believes in me and tries to finish judaism and my jewish family and torah family and my genies or make my genies or my torah family or jewish religion bad. I command my genies to kill them instantly and not make anything bad of them. Give them a good death and kill them forever.

Continue...

I just have a question with everyone in the worlds of god tell me truly how you will proof that i sinned by pissing on sartaukh ka alawa or all other sins ? because i have not entered into worlds of god and you proof i only did it from spiritual world even after knowing truth and i also proved truth that who controlled me and forced me to do all sins to continue living and save there god. When they cannot proof to anyone that i only sinned by coming in front of me and says believe in us then how anyone believes in them they show wrong proof because i also provide proof which is true and if they believe there world of god proof is true then i also say the world of god proof which i proved is true and if they have right to make my life bad then i also have right to make there life bad.

The one who puts court on anyone and who spends property for anyone to sin is the sinner dont you believe that ?

Now to win from me and kill me they are proving me of sometimes hinduism and sometimes christianity and sometimes islam religion WHY I ASK EVERYONE WHY ?

I already proved i am sinless and all cases and sins which were put on me was put by all religions so how can anyone put there sins on me if they say i am sinner ? and cannot enter worlds of god ? i want to know from every gods and public.

When i cannot enter into worlds of god when everyone put there sins and cases on me for many years and why i got punishment ? I want to understand what is your worlds of god about ?

How many sins hinduism religion has put on me ?

How man sins islam religion has put on me ?

How many sins christianity has put on me ?

WHY WHY WHY ?

If i am sinner and cannot enter into worlds of god then why they have put sins on me WHY ?

Continue...

I was quiet today after i wrote personal story of truth of me and i became happy when people read my story from paltalk where i challenged them and when i was quiet i came to know shia genies were telling to my torah genies that since the beginning i had enemy genies on me like genies kept inside me so anything becomes bad of anyone then my torah genies asked them what do you mean shia genies replied the reason you are on him is because you didnt understood him and you dont know that if a genie is on anyone then everything of him is wrong and cannot be declared as done by him.

I JUST QUESTIONED IMMEDIATELY BY INTERRUPTING THROUGH UNDERSTANDING SO THEY UNDERSTAND WHAT I UNDERSTAND.

I SAID HOW I GET GENIES THEN ?

WHY SHIA GENIES AND MUSLIM GENIES DIDNT LET ME SEE MY GENIES UNTIL NOW ?

Then immediately my torah genie asked them why genies of saudi arabia has come after knowing that enemy genies were inside of me after knowing truth.

If you read my above story you will understand why saudi arabia genies has come to save allah so he doesnt dies because they came to know i get genies without believing in them and there allah will die because of me as since childhood there allah was dying whenever i was loving anyone from heart.

I came to know zakki was the one who witnessed that i am last or maybe responsible of me and came into reality by giving his witness that he is responsible of me.

I dont understand if enemy genies were inside me then since when they were inside me ? did i use to get genies since i was kid and why shia and muslim genies kept it secret ?

What saudi arabia genies came to know that they left saudi arabia and came to stay with me ? i already told about them in my above story.

My torah genies asked me was it you who did conversation with us ? i said yes because i could not talk fast like genies and if i am quiet and respond then i am fine and able to respond.

I didnt understand at all, when muslims and hindus and christians knows that i am son of hashem why they prove me as of there religion and why saudi arabia genies who has come and staying as my neighbors and whenever enemy genies are removed from my body and head they send there genies inside my body and head so i get in control of them WHY ?

Why saudi arabia genies keeps there genies inside my body and head so i am in control of them and live according to them ? i dont understand they put genies and says i must not be sinless and declare me as sinner.

If shia genies says they are true then why did they believed in me and gave me there sins and why they believed in me by saying to everyone that i am imam mahdi of them ? was is to save imam mahdi ? so he doesnt dies who gave me fate to do masterbation for 7 and half years so his allah doesnt dies and i die after doing masterbation for 7 and half years ?

I want to know how shia genies proofs they are true when they are not true and why do they play through memories to win from anyone ?

If was not true i would have never get genies even after enemy genies were inside my body or head and i get jewish genies and complete torah universe family has visited me and they know i am there last and they did everything to save me and i dont know how much to thank them i love them very much and truly. I LOVE YOU MY TORAH FAMILY.

It doesnt make any sense when i am from jewish heaven and jewish then how anyone can prove me of there religion and win from any genies of me through

memory of me by forcing me to remember something like self talking.

I am sure hashem has understood me and even moises has understood me and all jews has understood me and my torah family has understood me.

Some of my genies family or torah genies came to know that when genies are going out of me then my health is becoming and i am becoming good but they didnt know truth that hashem was making me good by asking genies to let me come into reality so i get in consciousness and in reality. Hashem wanted to make me levitate in front of everyone with my true love genies but muslim and hindu and christian genies didnt let it happen.

I remembered shia genies was saying to torah genies when they were talking about enemy genies was inside my head and my body that what i have proved about knowledge and believe to everyone was believe of genie and not believe of me. Shia genies was proving it was torah genies who brought me into genies world and show me what is truth ? but didnt everyone remembered that i was murdered spiritually and i entered into spiritual world automatically ? what happens after someone is spiritually dead or murdered ? i want to know how much shia genies who are evil sinners will proof through memory that they are true if i dont provide a reply to my genies.

I was murdered in front of sartaikh ka alawa by agha hussain (shah hussain) and right now also there is spot in middle of my throat which proofs i was murdered and know about genies world or world of god because i was true and i love torah truly and i love god truly so i was alive otherwise others would have died.

You tell me what is the world of god about ? is it just a memory game who proves any temporary truth memory through humans or anyone from reality wins if nobody replies to the temporary truth memory and wins ?

How can anyone prove my knowledge and my believe is theres ? i dont understand the world of god about ? if i dont remember memory after i prove to everyone its my knowledge and my believe then how it belongs to anybody else ?

ANSWER ME IF YOU BELIEVE WORLD OF GOD IS TRUE WORLD OF GOD OR GOD IS REAL.

I came to know that my face is changed by genies who changes shape of nose and shape of face according to them like making my face stretching through stretching curtain and christian genies have put lines after above my little eyebrows taking my believe to show to everyone my nose bad, my nose is not bad and they want to show my nose looking bad because they want my torah genies and torah family and my genies to break relationship with me and stay away from me.

My nose is not really bad its good only when i laugh loud it stretches and i even told to my family member that how and why my nose is looking bad after she got hatred to dislike my nose and became of shit maybe and i told her its not true i will show you how just check what is in after starting of my eyebrows ? who has put the believe lines to make my nose look bad ? its christian genies

and they have put some kind of feeling in my nose from inside my nose where the feeling is bending nose so when i keep my mind clean it comes in my reality and my nose looks bended to me and when i hate my nose all my genies hates my nose. I also came to know someone has put a girl genie whose nose looks bad and whose nose is bended which i felt after looking at her nose through feeling which was put inside my body attached to me. Maybe someone wants me to marry that girl whose nose is bended and when she is attached to me my looks and my nose looks bad and different then i look.

I dont understand the marriage girl genie which is put inside my body i look like it and my appearance looks like it and if the girl genie is beautiful i look beautiful.

I can put a genie inside me by myself but i dont use my powers or do anything wrong because i am one god of time and i believe in myself because i am original god of universe too.

I am sure my torah genies and my torah family understands me and my hashem family understood me and they will take action immediately and my genies and souls...etc kids too.

Its easy to become a genie and take revenge from anyone but its not easy to control yourself when you become a genie and you can become mad through memory of any temporary truth if it repeated and you dont win from temporary memory of truth. I have very nice experience and i already won from everyone and all you have to do is come in consciousness and have life.

Muslims and hindus and christians didnt stop and wanted to make one god of time true love bad and they did something to some genies of true love of one god of time who is of torah and jew something and immediately the genies of the world started coming in home of one god of time and was seen to one god of time and immediately hindu god came and licked private part of one god of time by herself and many other hindus came and licked private part of one god of time who is me and i remembered few genies of other religions came and did lick my private part and those hindus who were inside middle of my body of maya who were black genies they didnt know that hindu god came automatically and licked my private part or they knew but they were genies and they didnt had control on themselves so whenever anyone just remembers them i commanded hindu god to suck my private part they was saying to make all jews bad but why would hindu god who is aishwariya of bollywood came and licked my private part by herself and why did maya genies didnt know even i didnt commanded or told ? so are not you getting understanding that even if hindu god did case on me by saying i commanded her to force suck my private part why would he come by herself and lick my private part and nobody comes to know truth ?

Some genie has even confirmed that hindu god came and licked my private part because her tounge feeling is on my private part and some hindu genie came to know it. If hindu god has come by herself and licked my private part by herself so what kind of case is there ? why hindus are taking revenge for what ? its not understandable at all ? are there genies mad who doesnt know what hindu god did after he booked case if she booked case and why ? Dont you believe every hindu must get mental certificate of truth including to there holy book gita.

I am creating this story as book now so if anyone reads the story please make a note its a personal story of truth so you must not take any action until you read complete story because the story is understandable after reading complete

story.
